UNIVERSITY AFFILIATION:
Johns Hopkins University School of Medicine

LICENSING REQUIREMENT:
Maryland state medical license

APPOINTMENT LEVEL:
Instructor – University Academic appointment
Full-time medical staff – hospital appointment

OPERATING PRIVILEGES:
Hospital full time staff privileges

OPERATIVE EXPERIENCE:
The fellowship at Johns Hopkins University School of Medicine is designed to prepare the surgeon for an academic career in facial plastic and reconstructive surgery. The Division of Facial Plastic and Reconstructive Surgery (FP&RS) within the Johns Hopkins Department of Otolaryngology is comprised of two full time and three clinical faculty members. In addition to these five fellowship-trained and ABFPRS certified faculty members, the fellow will also have the opportunity to train under oculoplastics, cosmetic dermatology, and MOH’s surgeons. Comprehensive training in all aspects of facial plastic and reconstructive surgery is provided. This includes in depth training in all aspects of facial cosmetic surgery as well as minimally invasive techniques, primary and revision Rhinoplasty, facial reanimation, MOHs reconstruction, microsurgical techniques, trauma, congenital facial reconstruction, and anterior skull base surgery. The fellowship incorporates both university and private practice training sites. These locations are all within Baltimore and the immediate surrounding areas, within 15-20 minutes of each other.

Johns Hopkins Hospital and Outpatient Center – The fellow functions as an integral member of a busy reconstructive practice. Rhinoplasty, trauma, anterior skull base, facial reanimation, microvascular & pedicled flap reconstruction, cosmetic, and a large volume of MOHs reconstruction cases are performed in a graduated “hands on” manner by the fellow with the attending. Fellows interested in gaining expertise in microsurgical
Techniques are offered training opportunities in the microsurgical lab and assisting on microvascular free-flap reconstruction cases.

_The Johns Hopkins Cosmetic Center at Greenspring Station_ – This is a multidisciplinary cosmetic center and outpatient surgery center in an affluent suburban location. The fellow will see patients and perform cases weekly with Dr. Byrne, as well as receive training with the cosmetic dermatologist center director. This includes a host of onsite laser and other skin rejuvenation procedures.

_The Facial Plastic Surgicenter_ – The fellow will spend one to three days per week seeing patients and first assisting on cases at this facility in Owings Mills under the direction of Drs. Papel, Kontis and Capone. A large volume of primary and secondary Rhinoplasty, facial cosmetic surgery, and skin cancer reconstruction are performed at the surgicenter.

_Greater Baltimore Medical Center_ – Drs. Byrne and Capone serve as co-medical directors of the Cleft Lip and Palate Team at this center, and the fellow is encouraged to attend the clinic meetings. Most years, an opportunity exists for the fellow to join one or more of the faculty members on an overseas mission trip. This opportunity is variable and no assurances can be made.

**Research:**
A research project producing a manuscript suitable for publication and presentation at a national meeting is required. Johns Hopkins offers innumerable opportunities for collaborative research, both clinical and basic science.

**Teaching Responsibilities:**
The fellow is an instructor in the Department of OTO-HNS at Johns Hopkins and is expected to participate in regular teaching conferences as well as supervising residents during reconstructive cases.

The fellow will be assigned occasional lectures to give at resident teaching conferences, and one grand rounds to be presented to the department. In addition, the fellow will be invited to participate in the monthly Facial Plastic Surgery journal club and lecture series.

**Case Load:**

_**Dictation**_ – The fellow will dictate the cases for which he/she is primary surgeon. The case volume is significant with five attending surgeons at three primary as well as occasional secondary sites (see the description under “Operative Experience”).

**Call Responsibilities:**
The fellow takes home call for facial plastics 1-2 weeks per month.
11/10/05

BENEFITS:
* Health: Full health coverage, dental, life, disability
* Stipend: $53,128
* Malpractice: Unlimited aggregate - $6 million per claim
* Tail Coverage: Yes - unlimited
* Other: Two weeks vacation per year; access to professional photography suite; lab coats provided; and office space with computer.

ADDITIONAL INFORMATION:
If applicants desire additional information, please contact the fellowship director. Previous fellows of the Johns Hopkins fellowship program are available to discuss their experience.

THIS PROGRAM DOES NOT ACCEPT INTERNATIONAL MEDICAL GRADUATES FOR TRAINING.
