UNIVERSITY AFFILIATION:
University of Medicine and Dentistry of New Jersey (UMDNJ); Robert Wood Johnson University Hospital

LICENSING REQUIREMENT:
New Jersey Medical License required

APPOINTMENT LEVEL:
Clinical Instructor, Department of Surgery, Division of Otolaryngology, UMDNJ

OPERATING PRIVILEGES:
Robert Wood Johnson University Hospital, New Brunswick, NJ
Robert Wood Johnson Surgical Center, East Brunswick, NJ
UMDNJ University Hospital, Newark, New Jersey.

OPERATIVE EXPERIENCE:
The majority of the fellow’s operative experience will be assisting Drs. Alvin, Mark and Robert Glasgold with ambulatory facial plastic and reconstructive procedures. The fellow will gain experience in external Rhinoplasty, facial contouring with alloplastic implants, deep plane rhytidectomies, blepharoplasties, endoscopic brow lifts, facial liposuction, and volume restoration through autologous fat grafting. Surgery is generally performed 5 mornings and one afternoon per week, with 2 operating rooms running concurrently on Monday through Thursday mornings. When cases occur concurrently, the fellow may choose, based on his interests and recent case experience, which of the two rooms to scrub.

The fellow may accrue, towards the completion of his year, fellow cases within our practice to perform as surgeon with the assistance of Dr. Glasgold.

Cases generated through the UMDNJ University Hospital residents’ clinic (see Teaching Responsibilities, below) will be performed by the fellow and residents from the UMDNJ otolaryngology residency program at UMDNJ University Hospital.

RESEARCH:
Clinical research on our patient database is encouraged and at least one research project is required. Basic science research in the biomaterials lab at UMDNJ-Robert Wood Johnson Medical School exist in cooperation with Frederick Silver, Ph.D., Chairman, Department of Biomaterials.
TEACHING RESPONSIBILITIES:
The fellow will spend one afternoon per week staffing a residents’ facial plastic and reconstructive surgery clinic with the UMDNJ otolaryngology residents. Cases generated through this clinic (which typically include septorhinoplasties, blepharoplasties, facelifts, fat transfers, and facial reanimation procedures) will be performed by the fellow and the UMDNJ otolaryngology chief resident.

CASE LOAD:
More than 600 cases in our facial plastics practice. In addition, the fellow will have private fellow cases and cases generated through the UMDNJ facial plastics clinic.

CALL RESPONSIBILITIES:
First call for our private practice. Hospital call, one week in six.

BENEFITS:
* Health: Yes
* Stipend: $2000 per month, with opportunities to earn additional income.
* Malpractice: Yes
* Tail Coverage: Yes
* Other:

ADDITIONAL INFORMATION:
The Fellow will be exposed to a large private facial plastic surgery practice. The Fellow will experience all aspects of facial plastic surgery practice, from being part of the initial patient evaluation through preoperative and postoperative care and counseling. The fellow will gain experience with Botox, Injectable fillers, non-ablative photo-rejuvenation, and computer imaging.
Opportunities to observe and assist members of our group with primary interests in cosmetic dermatology and hair replacement surgery also exist, as does the potential to observe microtia and cleft lip/palate surgery.

THIS PROGRAM DOES NOT ACCEPT INTERNATIONAL MEDICAL GRADUATES FOR TRAINING.
