UNIVERSITY AFFILIATION:
University of California - San Francisco, Department of Otolaryngology

LICENSING REQUIREMENT:
California License required

APPOINTMENT LEVEL:
Fellow and Clinical Instructor in Facial Plastic Surgery

OPERATING PRIVILEGES:
Aesthetic Facial Plastic Surgery Medical Center, Summit Hospital (Oakland, CA); University of California – San Francisco, San Francisco General Hospital, Veterans Administration Hospital, Mt. Zion Medical Center, HealthSouth Outpatient Surgery Center (San Francisco).

OPERATIVE EXPERIENCE:
Assist in cosmetic and reconstructive procedures and supervise Otolaryngology residents. The fellow will be primary surgeon on 30-50 cases.

RESEARCH:
Ample opportunities for both basic and clinical research at the University and with the University of California – Berkeley Bioengineering faculty. Dr. Maas’ current research efforts concern implantology and minimally invasive facial plastic surgery.

TEACHING RESPONSIBILITIES:
The fellow will provide supervision for Otolaryngology residents in clinic and the operating room. He or she will also coordinate a facial plastic surgery course for the residents in the spring and may present at Grand Rounds at the University.

CASE LOAD:
The fellow will participate in approximately 400 cosmetic surgical cases.

CALL RESPONSIBILITIES:
The fellow will share call with Dr. Kabaker for his private practice and take occasional Emergency Room call on weekends for Summit Hospital. University Hospital attending call will be approximately one week in ten.
BENEFITS:
  *Health: Provided.
  *Stipend: $30,000 - $40,000 per year plus comprehensive benefits package
  *Malpractice: Provided
  *Tail Coverage: Provided
  *Other: Film processing, pager, and cellular phone are provided.

ADDITIONAL INFORMATION:
The fellow will divide his or her time equally between the University of California Hospitals in San Francisco and Dr. Kabaker’s practice in Oakland (just across the Bay Bridge). The vast majority of cases in Oakland involve cosmetic facial plastic surgery (aging facial rejuvenation, rhinoplasty, etc.) with some emphasis on hair restoration surgery. In San Francisco, the fellow will work closely with Dr. Maas as well as function as an attending supervising residents. The casework at the University hospitals is a blend of cosmetic and reconstructive procedures.

Please let me know if you have any questions about the information above. It has been approved by both Dr. Kabaker and Dr. Maas.

THIS PROGRAM DOES ACCEPT INTERNATIONAL MEDICAL GRADUATES FOR TRAINING.
