FELLOWSHIP RESEARCH ABSTRACT FORM

ABSTRACT TITLE: _____

PLEASE CHECK ONE: **Clinical** **Basic Science**

1. Objective / Objective

2. Design / Design

3. Setting / Subjects

4. Patients or Other Participants / Intervention

5. Intervention / Results

6. Main Outcome Measure(s) / Conclusions

7. Results

8. Conclusions

Please attach extra pages if necessary.

HIPAA Agreement: The Department of Health and Human Services (HHS) has adopted a Privacy Rule to protect patient information. Because you may be submitting patient information in the form of **photographs** for your research project, the Privacy Rule requires you to see that AAFPRS enters into a contract to protect your patients' confidentiality. Accordingly, when AAFPRS receives your signed abstract for review, you and AAFPRS thereby agree as follows: (1) AAFPRS will use the information only to evaluate your fellowship research abstract and paper; (2) AAFPRS will not use the information for any other purpose except as required by law (which may include reporting violations of law to appropriate Federal and State authorities); (3) AAFPRS will use appropriate safeguards to prevent unauthorized use or disclosure; (4) If AAFPRS becomes aware of any unauthorized use or disclosure of patient information provided by you, AAFPRS will report that to you; (5) AAFPRS will inform staff and reviewers of these restrictions and insist that they agree to them; (6) AAFPRS will make the photographs available to the patient upon request, but only after informing you of that request and providing you an opportunity to object, if appropriate; (7) AAFPRS will allow any patient to make any amendments to the information provided regarding that patient in accordance with HIPAA; (8) AAFPRS will make available information for an accounting of disclosures on request of a patient; (9) AAFPRS will make internal practices, books, and records of use and disclosure of the patient information available to the HHS upon request; and (10) AAFPRS will destroy the patient information when its utility for fellowship research abstract and paper review process no longer exists. For your part, you agree by submitting the signed abstract that you will provide only patient information (including photographs) for which appropriate consents have been obtained under the law in force at the time the patient information was obtained, and that you will inform AAFPRS of any revocations or pertinent limitations on that consent.
