THE FELLOWSHIP PROGRAM

The Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery fellowship program provides postgraduate training in facial plastic surgery. The objectives of the fellowship program are to:

- provide an outstanding academic opportunity for the acquisition of specialized knowledge and skills in facial plastic surgery;
- develop trained specialists who will contribute to the ongoing development of facial plastic and reconstructive surgery;
- foster development of facial plastic and reconstructive surgery educators, especially in residency programs; and
- encourage the development of new skills and knowledge in facial plastic and reconstructive surgery through basic research and clinical trials.

Residents in ACGME accredited programs in otolaryngology or plastic surgery are eligible to apply for the more than 40 positions available each year. The AAFPRS Foundation fellowship program is widely respected by the medical community and represents the finest postgraduate program in the world for the training of facial plastic and reconstructive surgeons. Since its beginning in 1969, the program has trained more than 1200 highly specialized experts to be educators and leaders in facial plastic and reconstructive surgery. These individuals and their directors have performed a tremendous service to the AAFPRS and the specialty through the development and dissemination of new procedures, improvement of patient care, refinement of surgical techniques and the promotion of confidence and respect in the specialty.

INTERNATIONAL MEDICAL GRADUATES

International Medical Graduates (IMGs) who are eligible to pursue an AAFPRS Foundation Fellowship must contact individual fellowship directors for specific information on applying to their fellowship. Although IMG applicants will not complete a fellowship application for the interview process, they may be required to submit all other information as outlined (CV, operative experience list, future plan statement, references, medical school transcript and fees). Please note that individual Fellowship Directors may request additional information for the interview process, which may include USMLE scores.

If a fellowship director decides to accept an IMG, the fellowship director must inform the Fellowship Committee of their decision to withdraw from the match for that year, as soon as possible, but no later than the Spring Meeting each year. **IMGs should review the last statement of each Fellowship Description to determine which programs accept IMG applicants.**

Fellowship Directors are permitted to accept IMGs into their program for any fellowship year, however, an IMG **cannot** participate in the match process unless they meet the prerequisites as outlined in the Fellowship Handbook under “*PREREQUISITES*”. At the completion of the training, IMGs will be awarded an “International Training Certificate”.

APPLICATION PROCESS

All applicants must submit the following information through the Fellowship Database:

- A completed Fellowship Application, which includes the uniform operative report form,
- A current Curriculum Vitae (CV),
- A future plans statement, to include future goals, intentions and why you have chosen facial plastic surgery,
- An official Medical School Transcript with seal (electronic submissions accepted), and
- Three letters of recommendation (one must be from the Chair of your Department). Letters must be submitted via email directly to the AAFPRS Foundation office. Applicants are not permitted to upload reference letters.

A non-refundable \$175 application fee is also required to be paid by credit card. The fee to SF Match of \$50 **MUST** be paid directly to the SF Match Office. The \$175 fee includes application to 10 programs. All programs listed over 10 require an additional \$15 over limit fee (per program).

Applicants should complete their application with the AAFPRS Foundation office no later than **February 1st**. A \$125 late fee will be assessed for any application received after the February 1st deadline. The late deadline for applications received after February 1 is March 1st. No applications will be processed after the February 1st deadline without the late fee and no application will be accepted after March 1. Only completed applications are posted for Fellowship Directors to review.

All applications are posted on the same day for each program to review (in mid February). All interviews should be completed by May 31st prior to the match. Applicants are encouraged to interview with Fellowship Directors whose practice and teaching best supplement their residency training and future practice plans and/or teaching interests.

Candidates are placed each year during the first or second week in June by a match process. A Fellowship Director who has selected an IMG for their position will not participate in the match and must notify the Fellowship Committee prior to the Spring Meeting of their decision, which must be presented to the Foundation Board for review and approval.

MATCH PROCESS

All applications must come through the AAFPRS Foundation office to be recognized as an applicant of the Facial Plastic Surgery Match. The submission of a fellowship application is an agreement to participate in the match. Detailed match information is provided directly from the SF Match Office at the time of match registration.

FELLOWSHIP DIRECTORS

The fellowship directors in the fellowship program are recognized authorities in the teaching and practice of facial plastic surgery. They are formally affiliated with an accredited postgraduate medical training program. A description of each fellowship director's practice and areas of expertise is included in the Descriptions Handbook. Fellowship Directors are required to provide access to the fellowship bibliography and videotapes as part of their training program. The bibliography and videotapes provide a common base for the program.

Fellowship Director Applicants must complete an application process for review by the Accreditation Council for Post-Residency Specialty Education Fellowship Review Committee (ACPSE FRC). The final approval for accreditation of a program rests with the ACPSE Board.

A Fellowship Director is the one and only Director of the program who provides the majority of the fellow's training and is responsible for all administrative tasks and decisions. There may be up to 2 Co-Directors in a program, and combined, they can only contribute up to 49% of the training to the Fellow, leaving the Director with the "majority" of the responsibilities. A Co-Director is defined as one who teaches or participates in a minimum of 30% of surgical cases, participate or directly and personally oversee a minimum of 30% of the academic teaching responsibilities, and supervise a minimum of 30% of non-surgical, minimally invasive procedures and patient consults/evaluations performed by the fellow; meets the same application criteria as the Director and cannot automatically assume directorship; an application is required for directorship.

Fellowship Programs are governed by the ACPSE Fellowship Requirements. The requirements detail the necessary requirements for applying for and maintaining directorship. All programs are reviewed for accreditation by the ACPSE. Program requirements can be obtained by emailing [**fporter-el@aafprs.org**](mailto:fporter-el@aafprs.org).

ACCREDITATION COUNCIL FOR POST-RESIDENCY SPECIALTY EDUCATION (ACPSE)

The purposes of the ACPSE are to develop the most effective methods to evaluate Post-Residency graduate medical education, to promote the quality of Post-Residency graduate medical education, and to deal with such other matters relating to Post-Residency graduate medical education as are appropriate.

Each year the ACPSE FRC conducts a review process of Fellowship Programs for accreditation. Fellowship Directors will be notified prior to the review of their program.

The following pages contain detailed information on each fellowship program offered:

Jamil Asaria, MD FRCSC
FACE Toronto
251 Davenport Road
Toronto, Ontario
CANADA M5R 1J9
(416) 479-4244
(416) 920-4244 (FAX)
drasaria@facetoronto.com

UNIVERSITY AFFILIATION:

University of Toronto, [Division of Facial Plastic and Reconstructive Surgery](#), Department of Otolaryngology—Head & Neck Surgery

LICENSING REQUIREMENT:

Educational license supplied by the University of Toronto

APPOINTMENT LEVEL:

Fellow, Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology—Head & Neck Surgery at the University of Toronto

OPERATING PRIVILEGES:

The candidate will have operating privileges at FACE Toronto and Humber River Hospital as a fellow.

OPERATIVE EXPERIENCE:

Fellows will have a robust experience in the breadth of facial plastic and reconstructive surgery. This will include hands on experience in:

Facial cosmetic surgical procedures: deep-plane and mini-facelift, open and endoscopic forehead lift, facial fat grafting, rhinoplasty, revision rhinoplasty with costal cartilage grafting, transconjunctival and transcutaneous blepharoplasty, liposuction, chin implants, and otoplasty.

Facial reconstruction: Major Mohs reconstruction with interpolated forehead and cheek flaps, dermabrasion, scar revision, facial BCC with local or regional flaps, and facial nerve rehabilitation.

Hair transplantation: Scalp, eyebrow, and facial hair transplantation with both follicular unit grafting and follicular unit excision techniques.

Injectable fillers: Excellent exposure to injectable fillers and neuromodulators.

Skin Care: Micro-dermabrasion, micro-peels with alpha hydroxy acids, and medium depth (35 % TCA) peels.

RESEARCH:

The candidate will be responsible for doing a research project--either clinical or in the anatomy laboratory to present at the Academic Day, Department of Otolaryngology at the University of Toronto and fulfill requirements of the AAFPRS.

TEACHING RESPONSIBILITIES:

The candidate will give one grand rounds at the Department of Otolaryngology—Head & Neck Surgery at the University of Toronto. They will also contribute to hands-on cadaver dissection courses for the Otolaryngology Residents as well as contribute to the core lecture series in facial plastic and reconstructive surgery.

CASE LOAD:

Surgical volumes of major cases will include approximately:

- 200 rhinoplasties (20% revision)
- 100 aging face cases (including deep plane facelift, open and endoscopic browlift, transconjunctival and skin-muscle flap blepharoplasty)
- 20 autologous fat grafting cases
- 40 hair restoration cases with both strip and FUE technique
- 25 major Mohs repairs (interpolated forehead and cheek flaps)

There is also hands-on exposure to non-surgical facial rejuvenation including injectable fillers, neuromodulators, and skin care.

CALL RESPONSIBILITIES:

On-call for patients of Dr. Asaria. Hospital Coverage is 1 in 9 as fellow with Dr. Asaria back-up

BENEFITS:

- *Health: Ontario Health Insurance coverage if candidate has work permit.
- *Stipend: \$50,000
- *Malpractice: Is covered by Dr. Asaria
- *Tail Coverage: covered
- *Other:

ADDITIONAL INFORMATION:

Dr. Asaria offers a dynamic fellowship located in the heart of one of North America's most cosmopolitan cities. This fellowship has the advantage of immersion in a high volume facial plastic surgery practice that encompasses the scope of the specialty. Upon completion of the fellowship, the fellow will have a solid foundation in both aesthetic and reconstructive aspects of facial plastic surgery with the ability to excel in either an academic or private setting. The primary strength of this fellowship is the hands-on exposure to a diverse array of cases and techniques. The primary focuses of the fellowship are to:

- build a strong foundation in primary and revision rhinoplasty
- develop a well-rounded approach to rejuvenation of the aging face with the ability to provide solid surgical treatment ranging from minimally invasive procedures to more comprehensive surgery such as deep-plane rhytidectomy, transconjunctival and transcutaneous blepharoplasty, facial fat grafting, and facial implants
- develop an advanced approach to facial injectables and skin care
- promote competence with modern techniques in hair restoration including follicular unit grafting and follicular unit excision
- provide comprehensive facial reconstruction for patients with cutaneous malignancy
- excel at an academic-affiliated practice with involvement in research, publications, and teaching
- gain an understanding of sound business principles related to building an independent facial plastic surgery practice from the ground-up

Updated 9/18/17

Jose E. Barrera, MD, FACS
555 East Basse Road, Suite 201
San Antonio, Texas 78209
14603 Huebner Road, Building 1A
San Antonio, Texas 78230
(210) 468-5426
(210) 468-3282 (FAX)

UNIVERSITY AFFILIATION:

The fellowship director is affiliated with the Uniformed Services University, MD

LICENSING REQUIREMENT:

Texas Medical License, Federal DEA, Texas DPS, and current ACLS certification required.

APPOINTMENT LEVEL:

N/A

OPERATING PRIVILEGES:

Christus Santa Rosa **Alamo Heights and** Cumberland Hospital

OPERATING EXPERIENCE:

The fellow will get exposure in cosmetic, reconstructive, maxillofacial and sleep surgery procedures. The fellow will participate in all aspects of Dr. Barrera's aesthetic and reconstructive cases with incremental participation as a primary surgeon as the fellowship progresses. The fellow will have their own minor cases of nevi/cyst excisions in clinic as well as Moh's reconstruction as a primary surgeon. The practice operates four different laser systems, which the fellow will be exposed to for vascular, scar, and skin resurfacing applications. Neuromodulator and filler injection patients are treated in the practice. The practice does not take ER call. Opportunities exist to spend time with Oculoplastic and Moh's surgeons as well. The fellow will participate in all clinic patient care including post-surgical care/suture removal in the clinic Monday through Friday. No Saturday or Sunday clinic.

RESEARCH:

Clinical research activities exist within the practice and through our university affiliation. A full research laboratory is available for research projects. The fellow as required by the AAFPRS Foundation will be required to complete a research project during the year and is expected to submit to a peer reviewed journal upon completion. Basic science research opportunities may exist at the San Antonio Military Medical Center.

TEACHING RESPONSIBILITIES:

The fellow will participate in teaching the Facial Plastic Surgery resident block alongside Dr. Barrera. In addition, the fellow will have the opportunity to attend dissection courses with Ophthalmology, Oculoplastic, Oral Maxillofacial, and Facial Plastic and Reconstructive surgeons.

CASE LOAD:

The practice is 50% cosmetic and 50% reconstruction with over 100 rhinoplasty and **75** aging face procedures including rhytidectomy, blepharoplasty, fat transfer, endoscopic brow lift, and laser resurfacing surgeries in addition to neuromodulators, dermal fillers, and cheek augmentation, etc. The practice also performs over **75** maxillofacial and airway reconstructive surgeries per year including glossectomy, cranial nerve stimulation, and

orthognathic surgery. The maxillofacial surgeries performed include maxillomandibular advancement, Lefort I osteotomy, sagittal split osteotomy, genioplasty, **and** genioturbercle advancement procedures. Clinic is open five days per week, with an average load of 25 patients three days per week and 2 operating days per week. Opportunities exist for fellow to acquire ER trauma cases. Small minor office excisions and laser surgeries are available as well. Increasing responsibilities for fellow to have primary surgical cases as skill set warrants.

CALL RESPONSIBILITIES:

The practice participates in a 1:4 Weekend Call Schedule with other providers in the community. The fellow will take primary call for the practice as part of the call pool as well as cover any questions directed to the practice at other times. Call amounts to one phone call or less per week to answer a patient question. Very occasionally an emergency for a post-op patient may require an in-person visit. Dr. Barrera will participate when needed in person.

BENEFITS:

- *Health: A \$300 per month stipend for heal plan benefits
- *Stipend: \$48,000 per year
- *Malpractice: Yes, through the Doctors Company.
- *Tail Coverage: Yes, through the Doctors Company. **The fellow will be responsible for tail coverage after leaving the fellowship.**
- *Other: Vacation-fellow will be offered 10 days paid vacation as well as 7 holidays per year. Meals-at the hospital provided during OR days.

ADDITIONAL INFORMATION:

The fellowship offers a unique experience in cosmetic and reconstructive facial surgery with an emphasis on rhinoplasty, aging face, and airway reconstruction. The fellowship offers a wide experience in sleep and maxillofacial surgery. The fellow will graduate with experience to join an academic faculty or private practice as a facial plastic and reconstructive sleep surgeon. Opportunities for specific additional oculoplastic, trauma or orthognathic training are available within the fellowship. The fellow will have the opportunity to learn the business side of starting, operative and building a private facial plastic surgery practice. The fellow will have clinical and basic science research opportunities within the practice as well as participate in teaching residents.

(215) 829-5888 (FAX)*

UNIVERSITY AFFILIATION:

University of Pennsylvania.

LICENSING REQUIREMENT:

Pennsylvania and New Jersey

APPOINTMENT LEVEL:

Fellow will receive appointment as Clinical Instructor at the University of Pennsylvania, Division of Facial Plastic & Reconstructive Surgery, Department of Otolaryngology-Head and Neck Surgery

OPERATING PRIVILEGES:

Yes

OPERATIVE EXPERIENCE:

No specific responsibilities except to learn.

RESEARCH:

Opportunities for clinical and basic science research with the fellowship director and co-directors, and also at the University of Pennsylvania. It is expected that the fellow will participate in several research projects suitable for publication.

TEACHING RESPONSIBILITIES:

Teaching of residents will be encouraged.

CASE LOAD:

Case experience is a priority. Fellow will rotate with the faculty on their surgery days. The combined surgical case load of the faculty is over 1000 cases per year. The fellow's time with each faculty will be tailored to create a full and well-balanced experience

The fellow will have a facial plastic & reconstructive surgery focused clinic where he/she will be able to obtain surgical patients for treatment, operate on them and perform their follow-ups back in clinic. Also, the fellow will be able to offer cosmetic surgeries (at discounted prices) to patients that he/she recruits. These would all be the fellows' own patients and their surgical care and management would be supervised by the fellowship faculty.

Dictation: Only for surgeries performed by fellow as primary surgeon.

CALL RESPONSIBILITIES:

No more than one week out of four.

BENEFITS:

- *Health: YES
- *Stipend: \$45,000
- *Malpractice: Occurrence Policy
- *Tail Coverage: Not applicable, occurrence policy so no tail needed.
- *Other: 2 weeks vacation, plus standard holidays, photography assistance, website development assistance provided, and standard leave policy in effect; meals not included.

ADDITIONAL INFORMATION:

The fellow's primary responsibility is to learn. The fellow will be permitted to take an active role in the preoperative, intraoperative and postoperative management of patients at each institution, as directed by the primary surgeon. This fellowship provides in-depth education in all aspects of aesthetic aging face surgery and rhinoplasty/revision rhinoplasty, cutting edge education in non-ablative treatments/injectables, and MOHS reconstructive surgery. The fellowship provides the opportunity to experience several different facial plastic surgery professional settings – group private practice, solo private practice, academic, and partnership with dermatology.

The fellowship provides significant opportunity for clinical research/publication.

All surgeries are performed in an ambulatory setting. The fellow will be able to see patients in follow-up to have this experience in patient follow-up. The faculty will mentor the fellow in the art and science of the patient encounter, and also in the practical aspects of starting and developing a facial plastic surgical practice.

Other Faculty include:

[Dr. Nicole Schrader \(Private Practice, Clinical Assistant Professor, University of Pennsylvania\)](#)

Dr Anita Konka (Assistant Professor, Division of Facial Plastic Surgery, UPENN)

Dr Eric Bernstein (Aesthetic Dermatologist)

Dr. Clifford Perlis (MOHS Surgeon)

Updated 9/18/17

Gregory H. Branham, MD, FACS
The Facial Plastic Surgery Center
1020 North Mason Rd.
Suite 205
Saint Louis, Missouri 63141
(314) 996-3880
(314) 996-8610 (FAX)
branhamg@wustl.edu
JChi@wustl.edu

John J. Chi, MD, MPH

UNIVERSITY AFFILIATION:

Washington University in Saint Louis

LICENSING REQUIREMENT:

Completion of accredited OTO-HNS or Plastic Surgery Residency Program; Missouri State License and BNDD and current active DEA number. Current ACLS certification at the start of fellowship.

APPOINTMENT LEVEL:

Instructor, Otolaryngology, Washington University School of Medicine, St. Louis, MO

OPERATING PRIVILEGES:

Staff privileges at Barnes Jewish Hospital; Barnes West County Hospital; John Cochran VA Medical Center; St. Louis Eye and Laser Center.

OPERATIVE EXPERIENCE:

Fellow will see patients in the office pre and postoperatively with Dr. Branham and Dr. Chi. Dr. Branham's practice consists of 50% primary and revision rhinoplasty, 20% aging face, 20% Mohs reconstruction and 10% trauma. Dr. Chi's practice is similar but with less microvascular free tissue transfer and facial paralysis management and less aging face. The fellow's **primary responsibility will be to operate** with Drs. Branham and Chi as the schedule permits. The operative experience is a graduated experience with opportunities for primary responsibility for surgical cases at the beginning of the fellowship. On Wednesdays the fellow will staff resident rhinoplasties and trauma cases at Barnes Jewish Hospital with Dr. Branham or Dr. Chi. The fellow will also staff rhinoplasties, Mohs reconstruction and other facial plastic surgical procedures at the John Cochran VA Medical Center every Friday. The fellow will have the opportunity to generate cases of their own through referral from the Otolaryngology residents and faculty, and will have the opportunity to see those patients at the Facial Plastic Surgery Center. Microvascular free tissue transfer is not a large part of this fellowship and fellow applicants should not anticipate doing enough to be credentialed to do them upon completion.

Fellows are encouraged to spend time with Mohs surgeons, cosmetic dermatologists, oculoplastic surgeons and plastic surgeons in the community (multiple established opportunities exist at the university and with private practice physicians) whenever Dr. Branham is out of town, **the schedule permits** or upon approval. **The faculty at the Facial Plastic Surgery Center has a close working relationship with oculoplastic surgeons Dr. John Holds and Dr. Steven Couch and the fellow will spend time with Dr. Holds during the year to gain additional operative experience in oculoplastic procedures.** Exposure to hair restoration is available to interested candidates.

In addition to the operative experience at the hospitals, there are a number of procedures performed in the office procedure room including blepharoplasty, mini lifts, dermabrasions, laser resurfacing, chemical peels as well as fillers and neuromodulators.

Dr. Emily Spataro will join the practice in September 2018 and we are looking forward to her contribution to the resident and fellow education. Her practice represents an additional opportunity for exposure to patients and surgeries for this program.

RESEARCH:

The fellow will complete a research project as a part of the fellowship program. There are a number of research laboratories available to the fellow as well as opportunities for outcomes research and clinical research projects. The research activities will culminate in a peer reviewed publication.

TEACHING RESPONSIBILITIES:

The fellow will be responsible for one Grand Rounds presentation during the year. They will share responsibility for presentation at trauma conferences, M&M, and Facial Plastic Surgery conferences. They will be responsible for clinical teaching as they staff cases with the Otolaryngology residents. The fellow will serve as faculty for cosmetic surgery cadaver courses at the Practical Anatomy and Surgical Education facility at St. Louis University along with Dr. Branham.

CASE LOAD:

Practice is primarily cosmetic facial surgery, rhinoplasty and Mohs reconstructions with involvement in facial trauma and reconstructive surgeries on Wednesdays and Fridays. There are approximately 1000 surgical procedures performed each year. Cosmetic surgery practice is located at the Facial Plastic Surgery Center and Barnes-Jewish West County Hospital Ambulatory Surgery Center. There are 100 patients seen in the practice weekly.

CALL RESPONSIBILITIES:

The fellow will be responsible for primary call for Dr. Branham and Dr. Chi's patients. Fellow will take one week of call per month at the VA medical center and will be in the facility rotation for call at Barnes-Jewish Hospital. This call responsibility is approximately one weekday per month and one weekend per 3 months. All call will be from home.

BENEFITS:

- *Health Healthcare insurance coverage is provided as a benefit of employment.
Dental coverage is available
- *Stipend: Fellows are paid at the PGY6 level for the current year.
- *Malpractice is covered through **Washington** University
- *Tail Coverage: N/A Occurrence based policy
- *Other: Two lab coats will be provided One week of vacation is permitted. Sick leave and FMLA are permissible per University policy.

UNIVERSITY AFFILIATION:

None required for fellow. All activities directed by the Buckingham Center for Facial Plastic Surgery.

LICENSING REQUIREMENT:

Texas Medical License, Federal DEA, Texas DPS, and current ACLS certification required.

APPOINTMENT LEVEL:

N/A

OPERATING PRIVILEGES:

St. David's Hospital, Central Park ASC, Seton Hospital. Bailey Square Surgery Center, Westlake Hospital

OPERATIVE EXPERIENCE:

The fellow will participate in all aspects of Dr. Buckingham's aesthetic cases with incremental participation as a primary surgeon as the fellowship progresses. The fellow will have their own minor cases of nevi/cyst excisions in clinic as well as skin cancer reconstruction as a primary surgeon. Neuromodulator and filler injection patients will be available. There is also the potential to take ER trauma call if desired and have primary surgical responsibility. Opportunities exist to spend time with Oculoplastic and Mohs surgeons as well. The fellow will participate in all clinic patient care including post-surgical care/suture removal in the clinic Monday through Friday. No Saturday or Sunday clinic.

RESEARCH:

Clinical research activities exist within the practice. The fellow as required by the AAFPRS Foundation will be required to complete a research project during the year and is expected to submit to a peer reviewed journal upon completion. Basic science research opportunities may exist at UT, but would need to be sought out by the fellow.

TEACHING RESPONSIBILITIES:

The fellow will participate in monthly skin cancer conference with surgical and medical oncology, dermatology, pathology and reconstructive surgeons.

CASE LOAD:

The practice is 80% cosmetic nature with 75-100 rhinoplasties, over 100 rhytidectomies as well as blepharoplasty, fat transfer, endoscopic brow lift, chemical and laser resurfacing, neuromodulators, fillers, cheek augmentation etc. Busy clinical practice operating 3 full days per week with 2 days of clinic. 20% reconstructive practice is primarily focused on Mohs reconstruction, but opportunities exist for fellow to acquire ER trauma cases if desired. Small minor office excisions are available as well. Increasing responsibilities for fellow to have primary surgical cases as skill set warrants.

CALL RESPONSIBILITIES:

The fellow will take primary call for the practice at all times except as required by the AAFPRS Foundation guidelines. This usually amounts to one phone call or less per week to answer a patient question. Very occasionally an emergency for a post-op patient may require an in-person visit. Dr. Buckingham will participate when needed in person. No ER, hospital call responsibilities.

BENEFITS:

- *Health: None through practice, but \$400/month additional to cover cost
- *Stipend: \$48,000 per year base with opportunity to significantly increase through cases billed as primary surgeon. Level of reimbursement will be based on Fellows motivation to acquire cases.
- *Malpractice: Yes
- *Tail Coverage: Yes
- *Other: Fellow will be offered 10 days paid vacation as well as 10 holidays per year, lab coats provided, meals at ASC provided, clinic on own.

ADDITIONAL INFORMATION:

Dr. Buckingham believes that the fellowship experience should prepare the fellow in all ways to start a successful facial plastic surgery practice. Surgically, the fellowship should complement the training the fellow has already acquired in otolaryngology residency by building on trauma experience, refining Mohs reconstructive skills and providing a broad cosmetic facial experience with all aspects of a cosmetic facial plastic surgery practice including a broad range of surgical and non-surgical procedures. Opportunities for specific eyelid reconstructive techniques with an oculoplastic surgeon are also present as well as observing a fellowship trained Mohs surgeon. The fellowship must be more than just a surgical experience however; complete competency in patient interaction including performing a successful consultation, post-operative care and dealing with the difficult patient must be conveyed. Dr. Buckingham also has an accounting degree and started the practice from scratch. The fellow will have the opportunity to learn all aspects of the business side of starting, operating and building a private facial plastic surgery practice. Dr. Buckingham is also very involved with the county, state and national medical societies as well as the AAFPRS and ABFPRS. The fellow will have the opportunity to understand and participate in the organizational aspects of medicine and learn about the greater community of private practice medical relationships.

Additionally, Austin is the gem of Texas and is the "music capital of the world". The practice is located near downtown with ample opportunity to enjoy life. Walking trails, lakes, music festivals etc. are abundant. Life in Austin is a treat!

UNIVERSITY AFFILIATION:

LSU HSC - Shreveport

LICENSING REQUIREMENT:

LSBME

APPOINTMENT LEVEL:

PGY6 / Faculty Attending

OPERATING PRIVILEGES:

University Health Shreveport and Overton Brooks VAMC

OPERATIVE EXPERIENCE:

The fellowship operative experience encompasses nearly all aspects of facial plastic and reconstructive surgery to include local flap reconstruction, aging face procedures, maxillofacial trauma. An extensive experience in reconstructive and rhinoplasty is offered.

RESEARCH:

The fellow will be required to produce research papers using the scientific method for procedures performed. The chapter will be a review of the procedure outlining the scientific method.

TEACHING RESPONSIBILITIES:

The fellow is responsible to participate in resident education in both the clinical setting and also in educational setting at dedicated education time on Tuesday afternoons every 4th week. They will also be expected to attend the Otolaryngology grand rounds on Tuesday mornings.

CASE LOAD:

Graduates have performed 400-600 cases per year.

CALL RESPONSIBILITIES:

The fellow will be responsible to take call with the residents for a one week period every 10th week.

BENEFITS:

- *Health: Insurance provided
- *Stipend: \$59,729
- *Malpractice: Provided
- *Tail Coverage: Yes

*Other: The fellow will be provided with an institutional lab coat.

The fellow is allowed 3 weeks elective vacation time.

The fellow is provided a \$250 meal plan, which can be used in the University Health Cafeteria and Deli.

Johns Hopkins University School of Medicine

LICENSING REQUIREMENT:

Maryland state medical license

APPOINTMENT LEVEL:

Instructor – University Academic appointment

Full-time medical staff – hospital appointment

OPERATING PRIVILEGES:

Hospital full time staff privileges

OPERATIVE EXPERIENCE:

The fellowship at Johns Hopkins University School of Medicine is designed to prepare the surgeon for an academic career in facial plastic and reconstructive surgery. Cosmetic and reconstructive surgery are emphasized equally. [The training is focused on achieving competency and advanced skills across seven domains of the field:](#)

- [Rhinoplasty including revision rhinoplasty](#)
- [Aging face surgery, as well as minimally invasive treatments](#)
- [Head and neck reconstruction including free tissue transfer](#)
- [Mohs reconstruction](#)
- [Facial reanimation](#)
- [Trauma](#)
- [Congenital surgery](#)

[In addition we encourage our fellow to gain experience in hair restoration, anterior cranial base approaches, and to participate in clinical faculty of the Johns Hopkins Face Transplant Team.](#) The Division of Facial Plastic and Reconstructive Surgery (FPRS) is comprised of four full time and three clinical faculty members. There are also opportunities to train under oculoplastic surgeon, oral and maxillofacial surgery, cosmetic dermatology, and Moh's surgeons. The fellowship primarily incorporates three integrated but distinct settings: a university based reconstructive practice, an offsite academic cosmetic practice, and private practice facial plastic surgicenter. These locations are all within Baltimore and the immediate surrounding areas, within 15-20 minutes of each other.

Johns Hopkins Hospital and Outpatient Center – The fellow functions as an integral member of a busy reconstructive practice acting as primary surgeon on [most](#) cases. The facial reanimation, free tissue transfer, and Mohs reconstructions are each very busy services, [with Drs. Boahene, Byrne, and Desai each staffing cases](#). Functional rhinoplasty, trauma, anterior skull base, facial reanimation, microvascular reconstruction, microtia repair, and a large volume of Mohs reconstruction cases are performed in a graduated “hands on” manner by the fellow with the attending [staff](#). Fellows interested in gaining expertise in microsurgical techniques are offered training opportunities in the microsurgical lab and ultimately perform as primary surgeon on microvascular free-flap reconstruction cases as interest and skills dictate. The fellow also participates fully in all aspects of the Johns Hopkins Face Transplant program, for which Dr. Byrne serves as a co-Director.

The Johns Hopkins Center for Facial Plastic Surgery at Greenspring Station – clinic and ASC located in a mixed medical retail space in an affluent Baltimore suburb, 15 minute from the hospital. The fellow sees primarily cosmetic surgery patients and performs cases weekly with Dr. Byrne, [Dr. Boahene and Dr. Ishii](#). The fellow also has her/his own facial plastic surgery clinic at this site.

The Facial Plastic Surgicenter – The fellow will spend one to two days per week seeing patients and first assisting on cases at this [private](#) facility in Owings Mills under the direction of Drs. Papel and Kontis. A large volume of primary and secondary rhinoplasty surgery is performed at the surgicenter, [as well as facial cosmetic surgery \(facelift, blepharoplasty, brow lift, mentoplasty, etc.\) and reconstruction after Mohs surgery](#). A large volume of minimally invasive procedures such as facial fillers, neurotoxin use, and laser treatments are also provided.

Greater Baltimore Medical Center – Dr. Byrne serves as co-medical directors of the Cleft Lip and Palate Team. The fellow attends the team clinic meetings and scrubs on the cases. The fellow is encouraged to participate in one of the overseas mission trips that the faculty members volunteer on annually.

RESEARCH:

A research project producing a manuscript suitable for publication and presentation at a national meeting is required. Johns Hopkins offers innumerable opportunities for collaborative research, both clinical and basic science.

TEACHING RESPONSIBILITIES:

The fellow is an instructor in the Department of OTO-HNS at Johns Hopkins and is expected to participate in regular teaching conferences as well as supervising residents during reconstructive cases.

The fellow will be assigned occasional lectures to give at resident teaching conferences, and one grand rounds to be presented to the department. In addition the fellow will be invited to participate in the monthly Facial Plastic Surgery journal club and lecture series.

CASE LOAD:

The fellow will dictate the cases for which he/she is primary surgeon.

CALL RESPONSIBILITIES:

The fellow covers attending level home call for facial plastic trauma approximately 2 out of 5 weeks. There is no general otolaryngology call.

BENEFITS:

- *Health Full health coverage, dental, life, disability
- *Stipend: \$63,776
- *Malpractice: Unlimited aggregate - \$6 million per claim
- *Tail Coverage: Yes - unlimited
- *Other: Two weeks vacation per year; access to professional photography suite; lab coats provided; and office space with computer.

ADDITIONAL INFORMATION:

If applicants desire additional information, please contact the fellowship director. Previous fellows of the Johns Hopkins fellowship program are available to discuss their experience.

[*william_shockley@med.unc.edu*](mailto:william_shockley@med.unc.edu)

UNIVERSITY AFFILIATION:

University of North Carolina-Chapel Hill

LICENSING REQUIREMENT:

Valid North Carolina Medical License; credentialing for full privileges at UNC-CH

APPOINTMENT LEVEL:

Attending (Clinical **Fellow**), University of North Carolina-Chapel Hill, Department of Otolaryngology/HNS, Division of Facial Plastic and Reconstructive Surgery

OPERATING PRIVILEGES:

UNC Hospitals

OPERATIVE EXPERIENCE:

The operative experience is comprehensive, including all facets of cosmetic and reconstructive facial plastic surgery (except hair transplantation). A rich experience in office based, minimally-invasive procedures, fillers and neuromodulators, as well as ptosis repair and microtia reconstruction provide unique opportunities. Due to the collaborative opportunities with our world-renowned skull base division, a rich experience with intra/extracanal orbital pathology and other anterior skull base pathology are also provided. Cleft lip and palate repair and head and neck microvascular reconstruction is offered for the interested fellow, but not required. External fellowship-level rotations in oculoplastic surgery and Mohs micrographic surgery are also offered.

RESEARCH:

A scholarly research project producing a manuscript suitable for publication and presentation at a national meeting is required. UNC provides a prolific and collaborative environment for clinical research, as well as state of the art multidisciplinary surgical skills and biometrics laboratory. Basic science research in nasal airway physiology with computational fluid dynamics and airway modeling expert, Julia Kimbell, PhD, is available within the department.

TEACHING RESPONSIBILITIES:

The fellow is expected to participate in regular teaching conferences as well as supervising residents during reconstructive cases. The fellow will be assigned occasional lectures to give at resident teaching conferences, and one grand rounds to be presented to the department. In addition the fellow will participate in the monthly Facial Plastic Surgery Case Conference.

CASE LOAD:

The fellow should expect to assist with, and/or perform, at least 500 facial plastic and reconstructive surgical cases. The case volume is significant with two full-time experienced attendings. The fellow will be expected to increase his/her participation in surgical and office-based procedures as the year progresses-this is not designed as an “observational” fellowship.

CALL RESPONSIBILITIES:

The fellow is in a (home call) rotation with over 20 other attendings in the department, and 5 other fellows.

BENEFITS:

- *Health **Employee Health Insurance provided**
- *Stipend: **\$66,673, funding for travel and research provided**
- *Malpractice: UNC Liability Trust Fund
- *Tail Coverage: N/A
- *Other: 3 weeks paid annual leave; office space with computer; photography assistance; lab coats provided.

ADDITIONAL INFORMATION:

The UNC FPRS fellowship offers a balanced and in-depth experience in facial cosmetic and reconstructive surgery in an academic setting. The southeast regional referral patient population ensures a wide variety of patient pathology and surgical diversity. As an attending with autonomous clinic and operating responsibilities, the fellow should obtain significant “hand on” operative experience in nearly all facets of facial plastic and reconstructive surgery. Preference is clearly given to applicants who demonstrate a sincere interest in a full-time academic career, and experience in maxillofacial trauma care is preferred.

135 East 74th St.
New York, NY 10021
(212) 288-1500*

UNIVERSITY AFFILIATION:

Hofstra University School of Medicine at Lenox Hill Hospital – **Department of Otolaryngology and Facial Plastic and Reconstructive Surgery**

LICENSING REQUIREMENT:

Appointment to this position requires an active New York State Medical License.

APPOINTMENT LEVEL:

Clinical Fellow of Facial Plastic **and** Reconstructive Surgery in the Department of Otolaryngology, Lenox Hill Hospital and in the Department of Otolaryngology, Hofstra University College of Physicians

OPERATING PRIVILEGES:

The applicant will have unrestricted medical staff privileges **at all clinic sites.**

OPERATIVE EXPERIENCE:

This fellowship provides one of the most comprehensive training experiences, spanning the spectrum of both facial aesthetics and facial reconstruction. The well-rounded exposure in facial plastic and reconstructive surgery is made possible by the collaborative efforts of the sponsoring and adjunct faculty. Two AAFPRS fellows are matched to the program each year, and they rotate with all four directors.

Fellows evaluate the majority of Dr. Costantino's patients with him at the time of presentation and **participate in his surgical cases at Lenox Hill Hospital. They work closely with the Otolaryngology resident the Otolaryngology residents and physician assistants to manage patients' post-operative care. During this rotation, the emphasis focuses on reconstructive facial plastic surgery, including cranioplasty, complex nasal reconstruction, oculoplastic reconstruction, facial reanimation, facial trauma, pedicled flap reconstruction and microvascular free flap transfer. Exposure to complex approaches in cranial base surgery, including endoscopic and craniofacial anterior, lateral and infratemporal fossa approaches, fosters an appreciation for the three-dimensional anatomy of the head and neck. The subsequent craniofacial defects intra-operatively provide a robust experience in reconstructive modalities.**

Dr. Pearlman coordinates the aesthetic surgery aspect of the fellowship **which is spent equally with himself and Dr. Romo. With both *preceptors*, fellows learn both surgical and non-surgical options for addressing patient facial aesthetics. Surgical treatment includes rhinoplasty, revision rhinoplasty, otoplasty, rhytidectomy, chin augmentation, submental liposuction, blepharoplasty, brow lift and fat transfer. Non-surgical treatment includes training in neuromodulators, facial fillers, aesthetic lasers, aesthetic skin care and new adjunct therapies. During these rotations, patient evaluation, treatment planning, surgical problem-solving and technique as well as post-operative care is taught. Surgical cases are performed in AAAHC-approved private ambulatory facilities, at Manhattan Eye Ear and Throat Hospital or at Lenox Hill Hospital. Additionally with Dr. Romo, fellow gain extensive experience with microtia reconstruction.**

Drs. O and Waner are primary faculty and are involved heavily in fellowship training. Fellows have a unique opportunity to evaluate, manage and treat patients at the Vascular Birthmark Institute of New York with Drs. O and Waner, world-renowned for treatment of vascular malformations. This involves laser therapy, serial resections, local flap reconstruction, airway management and large staged reconstructions. Dr. O also performs facial reanimation procedures, including platinum eyelid weights, tensor fascia lata slings, nerve to masseter rehabilitation, temporalis muscle slings and cross-face nerve grafting for staged gracilis free flap transfers. Surgical cases are performed at Manhattan Eye Ear and Throat Hospital and Lenox Hill Hospital.

RESEARCH:

Fellows **are** expected to complete at least one major clinical research project suitable for presentation at a national meeting and subsequent publication. Dr. Costantino is actively involved in basic science as well as clinical research. Clinical research is also available with Drs. Pearlman, Romo, **O** and Waner. The department has a number of ongoing grants for clinical and biomaterials **investigations.**

TEACHING RESPONSIBILITIES:

Fellows have the opportunity to supervise residents **from NYU and SUNY Downstate while at Lenox Hill Hospital and Manhattan Eye Ear and Throat Hospital.**

CASE LOAD:

Dr. Costantino performs approximately 120 cranial base surgeries, 150 facial reconstructive procedures, and **10** free-flap tissue transfers per year. Currently, Drs. Pearlman and Romo each performs over **250** major cosmetic facial plastic surgery cases per year as well as over **500** minimally invasive procedures. These case numbers reflect the actual number of patients treated rather than the multiple unbundled procedures performed per case. Drs. Waner and O perform over 500 vascular malformation **cases** per year. Adjunct faculty provide the opportunity to participate in many more facial plastic procedures as well.

CALL RESPONSIBILITIES:

The AAFPRS Foundation and Head & Neck fellows share call responsibilities, which include first-call for Drs. Costantino's and Kraus' practices by phone and second-call for residents covering Facial Plastic Surgery consults at Lenox Hill Hospital. Coverage and General Otolaryngology call is rarely required. In addition, the fellow may be asked to cover Drs. Pearlman, Romo, **O or Waner patients. All *preceptors* are available by cell phone at all times.**

• **BENEFITS:**

- * Health: Full medical and dental coverage available
- * Stipend: **Equivalent to an ACGME PGY-6 salary**
- * Malpractice: Insurance provided at Lenox Hill Hospital, **Manhattan Eye Ear and Throat Hospital** and any **clinical** site of rotation within the fellowship program.
- *Tail Coverage: Not Required
- *Other: Fellows have 3 vacation weeks (including conference time) and 6 paid Holidays. All work related expenses will be **covered** by the program (i.e. **one** program-related meeting, lab coats). The program does not support a meal plan.

• **ADDITIONAL INFORMATION:**

Housing is not included but the hospital can help secure housing.

Updated 9/18/18 A

Richard E. Davis, MD
Voluntary Professor
Department of Otolaryngology/HNS
University of Miami Miller School of Medicine
The Center for Facial Restoration
1951 SW 172nd Avenue
Suite 205
Miramar, Florida 33029
(954) 442-5191
(786) 228-2853 (FAX)

Brian Jewett, MD (Co-Director)
Division of Facial Plastic & Reconstructive Surgery, Chief
Department of Otolaryngology/HNS
University of Miami Miller School of Medicine
1475 NW 12th Avenue, Suite 3527
Miami, Florida 33136
(305) 243-4735
(305) 243-4316 (Fax)

UNIVERSITY AFFILIATION:

University of Miami Miller School of Medicine - Jackson Memorial Hospital

LICENSING REQUIREMENT:

Valid Florida Medical License and valid DEA Certificate required.

APPOINTMENT LEVEL:

Attending (Instructor), University of Miami-Department of Otolaryngology

OPERATING PRIVILEGES:

Attending privileges at Jackson Memorial Hospital, Ryder Trauma Center, Miami Veterans Hospital, and University of Miami Hospital.

OPERATIVE EXPERIENCE:

Operative training typically includes: primary and revision rhinoplasty, brow and foreheadplasty (open and endoscopic), blepharoplasty (open and TCB), rhytidectomy, mentoplasty, lip augmentation, liposuction, otoplasty, microtia reconstruction, oculoplastic reconstruction, facial reanimation (static and dynamic slings), Mohs defect repair with local and regional flaps, tissue expansion, laser resurfacing, dermabrasion, cartilage/skin/bone/fat autografting, alloplastic implantation, maxillofacial trauma, and head & neck reconstruction.

RESEARCH:

A scholarly paper project culminating in a formal manuscript (suitable for publication) is required. Current research opportunities include long-term rhinoplasty outcomes, Mohs and other facial reconstruction, and educational assessment methods and analysis. Access to cadaver laboratory is also available for research investigations.

TEACHING RESPONSIBILITIES:

The fellow has limited formal didactic responsibilities but is expected to play an integral role in the day to day instruction of both otolaryngology house staff and medical students. The fellow is also expected to actively participate in the educational activities of the Division including attendance at teaching conferences, Departmental CME courses, and staffing of residents in the operating room.

CASE LOAD:

The fellow will assist Drs. Richard Davis (Director) at Memorial Hospital Miramar, and Brian Jewett (Co-Director) at Sylvester Cancer Center, University of Miami Hospital, and Lennar Center in the peri-operative care of patients. Typically, the fellow will spend two days per week with the Director and one day per week with the Co-Director. The balance of the fellow's time is spent staffing the clinic and operating room for the Jackson Memorial Hospital facial plastics service or visiting [affiliated faculty at the Miami Institute, or the Department's cosmetic dermatology clinic](#). The majority of cases arising from the JMH facial plastics clinics (including maxillofacial trauma) are the fellow's primary responsibility. Ample "hands on" surgical experience is obtained via [this service](#). During the fellowship year, the fellow should expect to assist with, and/or perform, approximately 300-400 facial plastic and reconstructive surgical cases.

CALL RESPONSIBILITIES:

The fellow is responsible for maxillofacial trauma attending call every fifth night. The fellow is also responsible for (infrequent) assistance with private patient emergencies.

BENEFITS:

- *Health: Basic health insurance (including spouse and dependents)
- *Stipend: Approximately \$64,565/year
- *Malpractice: Provided for all official fellowship-related patient care.
- *Tail Coverage: Coverage is provided on an "occurrence" basis obviating the need for "tail" coverage.
- *Other: Two weeks paid vacation, on campus parking, [DEA and Florida license fees paid, \\$1000 travel allowance to conferences & meetings](#)

ADDITIONAL INFORMATION:

The UM-JMH fellowship offers a balanced and in-depth experience in facial cosmetic and reconstructive surgery in both the academic and private office settings. The large urban patient population assures a wide variety of patient pathology and surgical diversity. As an attending with autonomous clinic and operating responsibilities, the fellow should obtain significant "hands on" operative experience in many facets of facial plastic and reconstructive surgery. Preference is given to applicants who demonstrate a sincere interest in a full-time academic career, and experience in maxillofacial trauma care is preferred.

(312) 335-2074 (FAX)
Contact E-mail: sdayan@drdayan.com

Dean M. Toriumi, MD

UNIVERSITY AFFILIATION:

University of Illinois

LICENSING REQUIREMENT:

MD, OD

APPOINTMENT LEVEL:

Fellow

OPERATING PRIVILEGES:

Yes

OPERATIVE EXPERIENCE:

The fellow will first assist Dr. Dayan in a variety of facial plastic surgery cases that mostly include rhinoplasty (closed primarily), blepharoplasty, Facelifting, Fat transfer and Laser resurfacing. After 6 month period of time and/or when the fellow is proficient and comfortable he or she will have the opportunity to schedule and staff their own surgical cases essentially being able to run clinic.

RESEARCH:

Clinical research opportunities are abundant. Dr. Dayan is a director of the Denova research center which conducts phase II, III, and IV clinical studies. There are over 30 dermatologist and 4 plastic surgeons in the group. The fellow will have the opportunity to serve in a sub investigator role. Additional opportunities to write protocols, submit for grants and present research will be available for the fellows. Dr. Dayan's fellowship is particularly appropriate for those desiring experience in clinical trials, writing and presenting findings.

TEACHING RESPONSIBILITIES:

Minimal responsibilities will be required. However, if the fellow desires to teach there is opportunity to teach the residents from UIC as well as over-seeing a skin care training program called Trued University. True University is under the guise of Dr. Dayan and is a training program that has over 400 estheticians and skin care professionals who are continuing their education. Frequent lectures and teaching opportunities are available to interested fellows.

There will be an opportunity to learn about the business of private practice and aesthetic medicine. Dr. Dayan does extensive consulting in aesthetic medicine primarily centered on marketing and social media. The fellow will serve in a designated role as the JAMA Facial Plastic Surgery intern. This will give the fellow an introduction to a highly prestigious medical journal, attending board meetings, and assisting Dr. Dayan in his role as the social media editor. Interested fellows will be given opportunities to get involved in consulting projects for multiple large multinational companies in the aesthetic industry.

CASE LOAD:

250-350 cosmetic surgery cases majority being Rhinoplasty, Facelift, Blepharoplasty from Dr. Dayan and Dr. Toriumi as well as 3-4,000 Non-surgical cases per year including Neurotoxin, Filler, Laser, other energy based device and Skin care from Michelle Whitehall-Ruffino, Selika Gutierrez-Borst, Dr. Dayan and Dr. Toriumi.

CALL RESPONSIBILITIES:

Primary call for private practice; one week every 2 months at IIC

The fellows will be responsible for taking one of the night call slots with the other attendings in the Department of Otolaryngology - Head and Neck Surgery at the University of Illinois at Chicago. *The fellows are on call no more than once every six weeks. They also will staff resident cases in the UIC operating room.*

BENEFITS:

- *Health: Yes
- *Stipend: PGY 6 UIC salary
- *Malpractice: Yes
- *Tail Coverage: Yes
- *Other: 2 weeks paid vacation, remainder of policy as all others depict in employee handbook.

Call for information.

ADDITIONAL INFORMATION:

Louis M. DeJoseph, M.D.
6085 Barfield Road
Suite 100
Atlanta, Georgia 30328
(770) 457-6303
(770) 457-2823 (FAX)

UNIVERSITY AFFILIATION:

Emory University School of Medicine, Division of Otolaryngology-Head & Neck Surgery

LICENSING REQUIREMENT:

Must have completed residency in Otolaryngology-Head and Neck Surgery or plastic surgery in the United States or Canada

Georgia State Medical License; Federal DEA#; and ACLS Certification required

APPOINTMENT LEVEL:

Clinical Instructor, Emory University Dept. of Otolaryngology Head & Neck Surgery

OPERATING PRIVILEGES:

The Fellow will have operating privileges at Northside Dunwoody Outpatient Surgery Center, Northside Hospital, and The Atlanta Veterans Administration Hospital.

OPERATIVE EXPERIENCE:

Dr. DeJoseph's Premier Image Cosmetic and Laser Surgery practice is a state of the art private practice plastic surgery clinic. The clinic is based out of a brand new 10,000 square foot plastic surgery facility with an associated medspa. His practice is limited to facial plastic surgery and is primarily cosmetic in nature (95%). The mixture of cosmetic procedures performed include rhytidectomy, rhinoplasty, blepharoplasty, chin augmentation, canthopexy, canthoplasty, otoplasty, endoscopic browlifting, laser skin resurfacing, RF skin tightening, tattoo removal, intense pulse light therapy, dermabrasion, hair removal, hair transplantation, and reconstructive procedures such as Mohs defects and scar revision. There is also extensive exposure to injectable facial enhancements through neuromodulators and fillers. Dr. DeJoseph performs over 400+ surgical cases per year. The fellow is heavily involved and expected to assist Dr. DeJoseph with all surgical cases.

The fellow will also have the opportunity to observe other facial plastic surgeons, plastic surgeons, oculoplastic surgeons, Moh's surgeons and oral/maxillofacial surgeons in the community to enhance their experience.

Premier Image Cosmetic and Laser Surgery Center is a multi specialty practice that includes one facial plastic surgeon and a plastic surgeon operating in a fully accredited (AAAHC) ambulatory surgery center. A full service skin care and laser center in addition, provides the opportunity for the patient to have all their cosmetic concerns addressed. The laser center performs tattoo removal with Q switched lasers, resurfacing with Fractional CO2, intense pulsed light therapy, as well as hair and vein removal. Non-surgical facial tightening is

also employed with the RF based systems. The fellow will have ample opportunity to learn this aspect of facial plastic surgery as well with hands on laser experience throughout the year.

The fellow also acts as attending surgeon at the Atlanta VA medical center with his or her own dedicated weekly cosmetic and reconstructive facial plastic clinic. Fellow's in the past have performed between 20-50 of their own cases as primary surgeon that range the full spectrum of facial plastic surgery including rhytidectomy, primary and revision rhinoplasty, blepharoplasty, endoscopic browlifting, direct brow lifting, chin augmentation, facial re-animation, and Mohs reconstruction. The fellow will also be able to perform filler, neuromodulator, and laser therapies to patient's seen in the clinic. All cases are discussed with Dr. DeJoseph for pre-operative planning and assessment. The fellow will also have the opportunity to work with other facial plastic surgeons, plastic surgeons, oculoplastic surgeons, Mohs surgeons and oral/maxillofacial surgeons in the community to enhance their experience.

RESEARCH:

Clinical research project is required by the AAFPRS. However, additional research and publication is encouraged.

TEACHING RESPONSIBILITIES:

Instruct and supervise the Emory ENT residents both at Dr. DeJoseph's clinic and at the VA medical center, respectively, in clinical and surgical procedures. The fellow will assist with a yearly injectable and cadaver rhinoplasty course held by the Emory ENT department. Fellow will also attend and participate in all departmental journal club and local ENT/facial plastic society meetings.

CASE LOAD:

400+ cases per year including rhytidectomy, primary/revision/ethnic rhinoplasty, blepharoplasty, chin augmentation, otoplasty, laser skin resurfacing, RF skin tightening, tattoo removal, intense pulse light therapy, dermabrasion, microneedling, hair removal, hair transplantation, and reconstructive procedures such as Mohs defects and scar revision. Additionally, fellow will have in depth exposure to advanced techniques in injectable facial volumization and neuromodulator application. Fellow will have own caseload including own patient's for surgical cases and filler/neuromodulator/laser interventions.

Typical weekly schedule:

Monday-Clinic with Dr. DeJoseph which includes Cosmetic consultations, follow up, and injectable enhancements.

Tuesday- Surgery with Dr. DeJoseph

Wednesday- Surgery in AM, Clinic afternoon with Dr. DeJoseph

Thursday-Surgery with Dr. DeJoseph; Review VA surgical cases with Dr. DeJoseph

Friday- Fellow attending surgeon at VA hospital. Surgery in AM with Clinic in afternoon

Saturday/Sunday-Off

CALL RESPONSIBILITIES:

First call for practice only. No ER or trauma call.

BENEFITS:

- *Health: Not Provided
- *Stipend: \$1650 per month
- *Malpractice: Yes, insurance provided.
- *Tail Coverage: Yes, tail coverage is provided.
- *Other: (2) weeks vacation and one (1) educational Meeting allowance.

ADDITIONAL INFORMATION:

Since the fellowship is a private practice setting for facial aesthetic surgery, emphasis is placed on learning practice management skills needed to run a successful practice. The fellow is included in all marketing discussions, and on financial budgeting for the practice. They are also encouraged to spend time with the practice administrator to learn the ins/outs of office management skills

Yadro Ducic, MD

Director, Center for Aesthetic Surgery
923 Pennsylvania Avenue
Suite 100
Fort Worth, Texas 76104
(817) 920-0484
(817) 927-1605 (FAX)

UNIVERSITY AFFILIATION:

Baylor Medical Center

LICENSING REQUIREMENT:

Texas License

APPOINTMENT LEVEL:

Faculty

OPERATING PRIVILEGES:

Fellow will operate at 7 hospitals and 3 surgery centers.

OPERATIVE EXPERIENCE:

Average caseload of 40-50 operative cases per week are available. The fellow will operate with a number of fellowship trained facial plastic surgeons, a cosmetic dermatologist an oculoplastic surgeon, and general plastic surgeons in the Dallas-Fort Worth area. On average the fellow operates 4.5-5 days per week. Approximately 80% reconstructive (including microvascular free tissue transfers, trauma, facial reanimation, major MOH's reconstructions, cleft lip/palate, skull base and craniofacial surgery) and 20% cosmetic (aging face, fillers, rhinoplasty) would be anticipated. The fellow is expected to be doing mostly all cases including free tissue transfers on own as they gain experience. This is a hands-on fellowship.

RESEARCH:

Opportunities for clinical research are plentiful. We would expect the fellow to submit at least a few papers for publication during their year-long fellowship. We start research with fellows soon after their match to our program.

TEACHING RESPONSIBILITIES:

CASE LOAD:

100-120 free tissue transfers per year; 30-40 cleft lip/palate cases per year; 40-60 skull base cases per year; 70-120 operative traumas per year including mandible; 120-150 rhinoplasties per year; 60-100 major MOH's reconstructions per year; 30-40 facial reanimation/rehabilitation procedures per year.. There is a fellow only hair transplant clinic as well.

CALL RESPONSIBILITIES:

Approximately 10 days per month first call. We have four mid-level provides (NP &PA) who help tremendously with rounds, consults and paperwork as well as screening patient on call phone calls.

BENEFITS:

- *Health: Health plan covered.
- *Stipend: \$48,000 per year
- *Malpractice: Covered
- *Tail Coverage: Yes.
- *Other: Furnished condominium and maid service. All utilities paid as well.

ADDITIONAL INFORMATION:

At least one course/conference (tuition, lodging and airfare) will be paid for during the fellowship year.

Updated 9/19/17

Edward H. Farrior, MD
2908 Azeele Street
Tampa, Florida 33609
(813) 875-3223
(813) 875-5586 (FAX)
Contact E-mail: lwells@drfarrior.com

UNIVERSITY AFFILIATION:

University of South Florida

LICENSING REQUIREMENT:

State of Florida

APPOINTMENT LEVEL:

Associate Clinical Professor

OPERATING PRIVILEGES:

- 1) Farrior Facial Plastic Surgery Center
- 2) Tampa General Hospital
- 3) James Haley Veterans Admiration Hospital
- 4) Marsoni Ambulatory Surgery Center

OPERATIVE EXPERIENCE:

Excellent operating experience with supervision and independently. Surgery as first assistant with Drs. Farrior and Hall and as an instructor at the VA and Tampa General Hospitals. The fellow has consistently more than 100 independent cases. Not uncommonly performing more than 40 rhinoplasties as the surgeon, multiple trauma cases and skin cancer reconstruction.

[Dr. Carter is a plastic surgeon assigned to the Otolaryngology department at the James Haley VA. He will be supervising and assisting the fellows on Tuesday in the clinic and OR at the VA Hospital.](#)

RESEARCH:

Resources are available at University of South Florida and The Farrior Facial Plastic Surgery center. Bench research is difficult to fund and initiate in the one year fellowship. Most research is clinical and performed as a prospective randomized study or as a chart review. Efforts for bench research would be supported.

TEACHING RESPONSIBILITIES:

The fellow is responsible for the supervision of residents in the clinic and operating room. Didactic lectures are expected of the fellow on a quarterly basis as part of the weekly conference schedule for the residents.

CASE LOAD:

The fellow is surgically busy at the VA Hospital and Tampa General Hospital. There is a full surgical day each week for the fellow to work with the residents and perform their own cases.

CALL RESPONSIBILITIES:

Back up call is taken at the VA Hospital and Tampa General Hospital. This is in a rotation with the University faculty once every 8 weeks for a week at a time. There is limited first call for the Farris Facial Plastic Surgery Center when the program director is out of town. This should not exceed 6 weeks a year.

BENEFITS:

- *Health: Covered
- *Stipend: \$85,000
- *Malpractice: Covered
- *Tail Coverage: Covered
- *Other:

ADDITIONAL INFORMATION:

Tampa is a vibrant, young community with year round outdoor activity, a moderate cost of living and moderate housing cost.

LICENSING REQUIREMENT:

California – Must have completed a residency in Otolaryngology-Head & Neck Surgery

APPOINTMENT LEVEL:

Pending

OPERATING PRIVILEGES:

Lasky Clinic

Currently working on obtaining staff position at outside teaching facility

OPERATIVE EXPERIENCE:

The Fellow will assist Dr. Frankel in a full range of cosmetic facial plastic surgical procedures (90%) and other reconstructive/functional cases (10%). The practice is heavily weighted in rhinoplasty, revision rhinoplasty and aging face. This is an 'apprentice type' experience with the Fellow becoming immersed and gaining practical knowledge from continuity of patient care. In addition to surgery, there is a high volume of injectable filler and Botox patients and the Fellow will also have access to a well equipped and staffed laser and skin center where they will be exposed to the most up to date non-surgical treatments available. The fellow may have the opportunity to act as primary surgeon on his/her own private in the second half of the academic year. When not assisting Dr. Frankel the Fellow will have ample opportunity to observe or assist other surgeons operative at Lasky Clinic or in the local vicinity when time permits.

RESEARCH:

Clinical research involving cosmetic and reconstructive, injectables and non-surgical treatments is ongoing at the Lasky Clinic with a large clinical database to draw from.

TEACHING RESPONSIBILITIES:

Responsible for organizing a city wide facial plastics journal club dinner including the residents from UCLA as well as private practitioners from multiple related disciplines.

CASE LOAD:

Approximately 320 surgical procedures plus additional minor cases weekly with Dr. Frankel. 40-50 more cases with other surgeons at Lasky and the potential to act as primary surgeon on Fellow's own private cases as experience and skill increases. Many opportunities to observe skilled surgeons in Los Angeles throughout the year.

CALL RESPONSIBILITIES:

The fellow will be responsible for calls for Dr. Frankel’s **private** practice.

BENEFITS:

- *Health: Not Provided
- *Stipend: \$48,000
- *Malpractice: Covered
- *Tail Coverage: Included
- *Other: One week of paid vacations plus time off for exams, academic meetings and job interviews .

ADDITIONAL INFORMATION:

This fellowship is structured like an apprenticeship where the Fellow becomes an integral part of an exclusive private practice. By being included in all aspects of patient care from beginning to end, the Fellow will experience the nuances of what it’s like to run a private practice. Exposure to a broad range of patients from very diverse and international origins creates unique challenges and provides a fertile training ground. Facial plastic procedures that are not emphasized or performed by Dr. Frankel can be accessed by observing or assisting many skilled surgeons within the Los Angeles area.

Mark Glasgold, MD (co-director)

UNIVERSITY AFFILIATION:

Rutgers University – Robert Wood Johnson Medical School; Robert Wood Johnson University Hospital

LICENSING REQUIREMENT:

New Jersey Medical License required

APPOINTMENT LEVEL:

Clinical Instructor, Department of Otolaryngology – Head and Neck Surgery, Rutgers University – Robert Wood Johnson Medical School

OPERATING PRIVILEGES:

Robert Wood Johnson University Hospital, New Brunswick, NJ
University Surgical Center, East Brunswick, NJ
Glasgold Group Surgical Suite, Princeton, NJ

OPERATIVE EXPERIENCE:

The majority of the fellow's operative experience will be assisting Drs. Mark and Robert Glasgold with ambulatory facial plastic procedures. The fellow will gain experience in external rhinoplasty (one third of the cases are revisions), volume restoration with autologous fat grafting, facial contouring with alloplastic implants, deep plane rhytidectomies, blepharoplasties, endoscopic browlifts, otoplasties and facial liposuction. Surgery is generally performed 4 days per week. When cases occur concurrently, the fellow may choose, based on his/her interests and recent case experience, which of the two rooms to scrub.

The fellow will have a broad exposure to in-office injectable procedures, including the use of neurotoxins and fillers for treatment of facial rhytids, as well as the use of injectable fillers for facial contouring.

The fellow may accrue, towards the completion of his/her year, fellow cases within our practice to perform as surgeon with the assistance of Dr. Glasgold. The fellow may also have the opportunity to perform injectable procedures during the year.

RESEARCH:

Clinical research on our patient database is encouraged and at least one research project is required. We have numerous ongoing clinical research projects for fellows to participate in.

CASE LOAD:

More than 600 cases in our facial plastic surgery practice. In addition, the fellow will have private fellow cases. Surgeries are performed at one of three sites: our In-Office accredited Operating Room, Robert Wood Johnson University Hospital or the University Surgery Center.

CALL RESPONSIBILITIES:

First call for our private practice. No required hospital call. There is no facial trauma call. Fellows may take at their discretion, Otolaryngology call for Robert Wood Johnson University Hospital for additional income.

BENEFITS:

- *Health: Yes
- *Stipend: \$2000 per month, with opportunities to earn additional income. It is common for the fellow to earn up to \$80,000+ by taking otolaryngology call for the hospital.
- *Malpractice: Yes
- *Tail Coverage: Yes
- *Other: Travel stipend provided for presentations at meetings. Access to professional photography suit; lab coats provided; and office space with computer

ADDITIONAL INFORMATION:

Goals of the fellowship:

- Become well acquainted with the daily operations of a private facial plastic surgery practice
- Learn the business of operating a facial plastic practice with an attached operative suite
- Perform injectables on the fellow's own patients that are recruited from the community
- Learn techniques in performing surgery and managing patient expectations
- Become comfortable with up-to-date software including facial morphing and 3-D photography
- Have the opportunity to generate fellow surgical cases with supervision to optimize learning by the end of the year

Our office is located in Princeton, NJ and is within 1 hour of New York City, by train or car.

Michael S. Godin, MD
410 Libbie Avenue
Richmond, Virginia 23226
(804) 285-8578
(804) 285-1870 (FAX)
Msgmd@earthlink.net

UNIVERSITY AFFILIATION:

Virginia Commonwealth University, Department of Otolaryngology

LICENSING REQUIREMENT:

Valid Virginia Medical License and valid DEA Certificate required

APPOINTMENT LEVEL:

Attending (Instructor) Department of Otolaryngology at VCU Hospital and Richmond VAMC

OPERATING PRIVILEGES:

Operating privileges at Michael S. Godin, MD, PLC; Virginia Commonwealth University Medical Center; Stony Point Surgical Center; and Richmond Veterans Administration Medical Center

OPERATIVE EXPERIENCE:

This fellowship is designed to give the fellow a balanced experience in the science, art, and business of facial plastic surgery. Under the guidance of the fellowship director, the fellow participates in a full range of cosmetic facial plastic surgery procedures including facelift, cervical liposuction, forehead and brow surgery, blepharoplasty, mentoplasty, primary and revision rhinoplasty, otoplasty, and dermabrasion. The fellow also participates in *non - surgical* office cosmetic procedures including facial fillers, Botox and other neuromodulators. In a graduated fashion the fellow will hold his/her own filler/botox clinic as experience is gained. There is ample exposure to all aspects of the attached medical spa where all aspects of skin care (superficial – medium peels, laser hair removal, and treatment of pigment disorders) and the running of an attached medical spa are available to the fellow depending on interest level.

The fellow runs his/her own facial plastic and reconstructive surgery clinics at the University Medical Center and VA Medical Center where he/she serves as an attending in the Department of Otolaryngology-Head and Neck Surgery. Available to the fellow at the University and VA Medical centers is a wide range of reconstructive facial surgery including repair of facial trauma, functional rhinoplasty and blepharoplasty, facial paralysis/reanimation, scar revision, and Mohs reconstruction.

The fellow has approximately one week per month of independent study time to broaden exposure to all aspects of facial plastic and reconstructive surgery. Opportunities exist to gain in-depth experience with craniofacial disorders (cleft palate/lip, vascular anomalies), along with further exposure to rhinoplasty, oculoplastics, and Mohs reconstruction by working with full-time and adjunct university attendings within the departments of plastic surgery, omfs, and ophthalmology.

RESEARCH:

A scholarly paper project culminating in a formal manuscript, which is suitable for presentation at an AAFPRS national meeting and subsequent publication, is required. The paper must be completed prior to the end of the fellowship year.

TEACHING RESPONSIBILITIES:

The fellow participates in departmental grand rounds, and plays an important role in resident education at Facial Plastic Surgery Conference; in the operating room; Department clinics; and at Departmental CME courses.

CASE LOAD:

The fellow will be in surgery 2 or 3 days per week. Fellows typically graduate with approximately 300 surgical cases. In the office, operative experience as well as the privilege of performing non-surgical facial rejuvenation procedures is granted in a progressive fashion as the fellow's knowledge and skill increases. At the VAMC and VCU Hospitals the fellow is an attending physician, runs his or her own clinics (facial plastics only) and is the primary surgeon on all cases.

CALL RESPONSIBILITIES:

The fellow takes first call for Dr. Godin's private patients, and takes attending call for VCU Department of Otolaryngology one week per month except for the month of July when he/she takes no Departmental call. The University is a Level I trauma center, giving fellows a broad experience in management of all aspects of maxillofacial trauma.

BENEFITS:

- *Health: Provided for fellow (paid by Dr. Godin's practice or cash equivalent paid to fellow)
- *Stipend: Approximately \$38,000 per year. V.A. component may vary somewhat.
- *Malpractice: Covered (paid by Dr. Godin's practice or cash equivalent paid to fellow)
- *Tail Coverage: Available
- *Other: Liberal time allowance for job hunting

ADDITIONAL INFORMATION:

There is a non-compete agreement for this fellowship. A concerted effort is made to expose the fellow to the business side of our specialty; therefore he or she participates in meetings with marketing, sales, insurance, accounting, and other business professionals and consultants as these opportunities arise. The fellow has attending status at the University and V.A. hospitals. The fellow attends VCU Otolaryngology grand rounds when his/her schedule allows and also presides over a monthly Facial Plastic Surgery conference for the residents in the Department. Exposure to major head and neck reconstruction including microvascular free flap repairs is provided and varies depending on the interest level of the fellow in these procedures.

Reviewed 9/19/18 A

Tessa A. Hadlock, MD
Massachusetts Eye & Ear Infirmary
243 Charles Street
Boston, Massachusetts 02114-3002
(617) 573-3709
(617) 573-3727 (FAX)

UNIVERSITY AFFILIATION:

Harvard Medical School

LICENSING REQUIREMENT:

Massachusetts Temporary

APPOINTMENT LEVEL:

Fellow, Massachusetts Eye and Ear Infirmary and Harvard Medical School

OPERATING PRIVILEGES:

Massachusetts Eye and Ear Infirmary and Massachusetts General Hospital

OPERATIVE EXPERIENCE:

The operative experience is highly focused on reanimation of the paralyzed face, though there is also extensive exposure to aging face surgery, periocular surgery, and microtia. There are international opportunities, both for short term missions and global surgical teaching – sites include sub-saharan Africa, Haiti, Rwanda, and South America. There is ample opportunity for trauma, rhinoplasty, and local flap reconstruction If desired. Interested fellows may gain exposure to a wide variety of pedicled and free flaps for head and neck reconstruction, as desired. Fellows will be trained in the entire spectrum of facial reanimation, from diagnosis, documentation, to office based surgical interventions, to nerve grafting, nerve repair, muscle transfer, static techniques, and free muscle transfer. Fellows will graduate completely comfortable in all areas of facial reanimation.

RESEARCH:

There is an extensive opportunity for clinical research and possibilities to perform wet-lab and translational research, under post-doctoral fellows. Strong technical support available (laboratory technician, students, grants administrators) permitting research to complement the clinical activity; high quality studies feasible despite a busy clinical schedule. Full R-01 funded laboratory effort employing a rodent model of facial nerve injury and recovery at the fellow's disposal. Opportunities for non-human primate work, global surgery teaching curriculum development, clinical trials, outcomes studies, you name it. The environment is designed to nurture research skills. Fellows graduate with an average of 6-10 published papers.

TEACHING RESPONSIBILITIES:

Fellows interact daily with junior and senior residents, as well as with neuro-otology fellow, rhinology fellow, and head and neck fellow. The directly supervise residents at their ability level, mentor them in research and clinical projects, deliver occasional journal clubs, and run facial nerve teaching conference on both weekly and quarterly basis.

Developing oneself as a teacher is strongly emphasized.

CASE LOAD:

2-3 operative days per week

2 half-days in office

One protected research or other clinical experience day

CALL RESPONSIBILITIES:

No formal call responsibilities; fellow is expected to field calls from residents regarding facial nerve post-operative patients, but has no formal call responsibility to the emergency room. Limited licensure precludes any first call responsibility.

BENEFITS:

*Health

*Stipend: \$49,000 annually

*Malpractice: CRICO

*Tail Coverage: Yes

*Other:

ADDITIONAL INFORMATION:

This fellowship is a one-year experience with an option for a second, research intensive year, designed to produce an academic facial plastic surgeon ready to succeed as a junior faculty member in an academic setting. There are five other facial plastics faculty all fully receptive to fellow involvement.

(215) 955-6784
(215) 923-4532 (FAX)

UNIVERSITY AFFILIATION:

Thomas Jefferson University Hospital / Jefferson Medical College

LICENSING REQUIREMENT:

Pennsylvania license required

APPOINTMENT LEVEL:

Non-tenured tract Instructor in Thomas Jefferson University Department of Otolaryngology

OPERATING PRIVILEGES:

Thomas Jefferson University Hospital

OPERATIVE EXPERIENCE:

The fellow will be in the operating room 3 to 4 days of the week. 1 to 2 days will be devoted to major head and neck reconstruction, 1 to 2 days will consist of cosmetic cases at an ambulatory surgicenter, and 1 day will be office based procedures. The fellow will be expected to instruct the residents and medical students while in the operating room. The fellow will be responsible for supervising the dressing changes, hospital care and management of the inpatients and suture removal and assist in postoperative care in the clinic. The fellow will be provided with progressive surgical responsibility during the course of the year, with emphasis on preoperative evaluation, development of surgical treatment plan, surgical technique, and postoperative management. The fellow will have attending privileges and will be able to book his or her own surgeries with appropriate supervision. In our cosmetic clinic, fellows will participate in the gamut of non-surgical procedures including laser treatments, skin tightening, fillers, neurotoxins, aesthetic services and skin care, and office based cosmetic surgery.

RESEARCH:

It is expected that the fellow produce at least one relevant project for presentation at a meeting and publication during the fellowship, in accordance with AAFPRS fellowship expectations. Many opportunities for research exist in the department, including basic science and animal laboratories run by Dr. Pribitkin and Dr. Heffelfinger. We have an extensive support staff for research, including a full time research coordinator, who are available to help the fellow with his/her project. Assistance through our departmental research coordinator will be available for establishing the necessary IRB or other paperwork prior to the fellow's arrival, should they wish to initiate a new project; however, numerous clinical and translational projects are currently in progress. Should the fellow choose to join an existing project the expectations of producing one paper during the year remains. Currently all of the residents in our program are expected to participate in our yearly resident research symposium and competition. The fellow would participate as well. Additionally, attendance is financially supported to attend any meeting at which a departmental project is accepted.

TEACHING RESPONSIBILITIES:

The Fellows are expected to participate in teaching of the residents and medical students, as well as the staff. The fellow will present grand rounds once during the year. Additionally, regular teaching is expected on rounds and in the operating room on a daily basis in an informal format. Formal resident and student teaching responsibility includes providing at least a total of three hours of lecture time during the course of the year during resident education hours. This may be in any format that the fellow chooses (i.e. journal club, inservice review, facial plastic surgery lecture series) as long as it consists of educational material relevant to the fellowship.

The fellow is expected to help coordinate an annual microvascular skills and training course for the otolaryngology residents and hand surgery fellows. This is a weekend course that is industry supported, the goal of which is to improve microscopic skills and study flap harvest anatomy.

CASE LOAD:

The fellow is expected to dictate cases for which he/she is the primary surgeon. In observational or co-surgeon cases, the attending surgeon will have primary dictating responsibility.

The expected sample caseload, based on faculty operative records and previous fellows, is as follows:

60 Free flaps; 30-40 Facelifts; 70-100+ Rhinoplasties; 40-50 Blepharoplasties; 10-15 Hair transplants; 70 Laser Resurfacing; 5-10 Otoplasties

Clinical instructor privileges would allow for the fellow to perform attending level call for 5-6 weeks in the 12-month period. Fellows are expected to accompany any free flap take-backs if they are available and the opportunity arises. Fellow will take cosmetic phone calls on nights and weekends.

The fellow is expected to dictate cases for which he/she is the primary surgeon. In observational or co-surgeon cases, the attending surgeon will have primary dictating responsibility.

BENEFITS:

- *Health: Faculty benefits including health and dental
- *Stipend: At the PGY 6 level, which was currently \$64,000 for the 2013-2014 academic year.
- *Malpractice: Fellow will be provided professional liability insurance coverage (including tail coverage) in at least the minimum amounts required under applicable law.
- *Tail Coverage: as per above
- *Other: 2 weeks vacation, 6 paid holidays, lab coats provided, meals often provided by attendings, full IT resources for photography education and access to our multiple digital cameras, video cameras, webcams and photo room

UNIVERSITY AFFILIATION:

University of Minnesota

LICENSING REQUIREMENT:

License required for the state of Minnesota.

APPOINTMENT LEVEL:

Non-tenured tract instructor level in the Department of Otolaryngology, University of Minnesota

OPERATING PRIVILEGES:

Operating privileges are available and required for the University and affiliated hospitals as well as several surgery centers within the Twin Cities community.

OPERATIVE EXPERIENCE:

The Division of Facial Plastic and Reconstructive Surgery and the Department of Otolaryngology at the University of Minnesota has five fellowship trained faculty, five pediatric otolaryngologists, an oculoplastic surgeon, and four head and neck microvascular free tissue transfer surgeons as faculty that relate regularly with the fellow. The facial plastic surgery fellow will relate primarily to these members but certainly other faculty members within the department will participate in the teaching and clinical experience for this fellowship.

The clinical experience is comprehensive and includes significant exposure to the Cleft Lip/Palate, Craniofacial and Skull-Base Clinics at the University and Minneapolis Children's Hospital. In addition, the maxillofacial trauma services at the University and its two affiliated Level I trauma hospitals provide clinical exposure to approximately 100 major maxillofacial injuries per year. Similarly, significant numbers of delayed and late post-traumatic facial reconstructive cases are available. The faculty maintains relationships with at least eight Mohs cutaneous surgeons and the fellow thus has access to more than 350 reconstructive cases per year. The fellow often works on a one-on-one basis with a senior oculoplastic surgeon who performs the gamut of cosmetic and reconstructive periorbital procedures. A small animal laboratory is available to practice microvascular techniques and at least 50 microvascular free tissue transfer procedures are performed yearly.

Aesthetic surgical experience is an essential part of the fellowship with several hundred cases per year performed by the Division of Facial Plastic Surgery. In depth exposure to all facial cosmetic techniques is provided including Rhinoplasty, Blepharoplasty, Rhytidectomy, Brow Lift, Profile Enhancement, Skin Resurfacing as well as non-surgical Facial Rejuvenation Techniques.

The fellow staffs an outpatient clinic one half-day per week based in one of the University of Minnesota's affiliated hospitals in St. Paul. Through this clinic, additional operative cases are generated.

RESEARCH:

Research opportunities are also available with ongoing research currently being carried out in basic science areas as well as clinical research.

TEACHING RESPONSIBILITIES:

The fellow is an instructor in the Department of Otolaryngology at the University of Minnesota and is expected to participate in regular teaching conferences as well as supervising residents during reconstructive cases at university affiliated hospitals.

CASE LOAD:

Please see the description of the operative experience.

CALL RESPONSIBILITIES:

The fellow is expected to take call one weekend per month and a weeknight at one of the affiliated hospitals.

BENEFITS:

- *Health: Standard faculty health insurance is available for the fellow and family.
- *Stipend: Approximately \$60,000/year, which includes the cost of fellowship and ABOto examinations expenses
- *Malpractice: A full malpractice coverage as well as payment of the malpractice tail is included.
- *Tail Coverage:
- *Other:

ADDITIONAL INFORMATION:

If applicants require additional information, please contact the fellowship director. Previous fellows are available to discuss the experience in our fellowship. There are 5 ABFPRS certified faculty members.

UNIVERSITY AFFILIATION:

Department of Otolaryngology- Head and Neck Surgery, Albert Einstein College of Medicine; New York, New York

LICENSING REQUIREMENT:

New York State License, Federal DEA, ACLS Certification

APPOINTMENT LEVEL:

Clinical Fellow of Facial Plastic and Reconstructive Surgery, Albert Einstein College of Medicine

OPERATING PRIVILEGES:

Operating Privileges New York Center for Facial Plastic and Laser Surgery (NYCFPLS), Departmental Fellow Privileges at North Shore University Hospital and LIJ Hospital

OPERATIVE EXPERIENCE:

600-700 cases per year. Fellow will assist in full range of cosmetic surgery (80% case load) and reconstructive surgery (20% case load) procedures. Cosmetic Surgery procedures include face lifting (deep plane, extended SMAS, and short scar techniques), endoscopic midface lifting, browlifting (endoscopic, coronal and trichophytic techniques), blepharoplasty, rhinoplasty (50% open, 50% closed, 30% of cases revision), liposuction, cheek, chin and gonial angle alloplastic augmentation, lip augmentation (V to Y, lip lifts, dermal fat grafting), autologous fat grafting and liposculpture, otoplasty, facial tightening devices (Ulthera, Titan), facial resurfacing (Fractional Laser Resurfacing (FRAXEL), Fractionated CO2, Chemical Peels and Dermabrasion). Reconstructive surgery case load includes Mohs defect repair with local and regional flaps (including forehead flaps and Hughes flap), oculoplastic surgery (ptosis, lateral reticular suspension, and ectropion repairs), trauma repairs, split calvarial bone grafting and rib cartilage grafting, and congenital facial deformities. Outside of above noted case load, fellow will be exposed to a high volume injectable filler and Botox office practice. This is a "hands on" operative fellow experience. The fellow's "hands on" experience will be obtained from his /her own surgical case load generated at the fellow's clinic at the NYCFPLS, where the fellow can anticipate generating aesthetic and reconstructive cases alike. Additionally, he/she will also act as Attending Surgeon and staff residents in facial plastic surgery cases. The fellow accompanies Dr. Jacono on two one-week mission trips abroad, one week dedicated exclusively to cleft lip and palate, and the other to microtia. The fellow functions as surgeon on these trips, where they will be immersed in the comprehensive care of a wide spectrum of craniofacial congenital anomalies.

RESEARCH:

Clinical research on cosmetic and reconstructive surgery, injectable fillers and fractional laser resurfacing are routinely performed in Dr. Jacono's private clinic.

TEACHING RESPONSIBILITIES:

Cadaver and anatomic dissection are coordinated during a 2 day annual fresh cadaver head facial plastic surgery dissection course Dr. Jacono runs for the Albert Einstein College of Medicine (AECOM). The fellow will assist in the course, providing both lecture and dissection based didactics to the otolaryngology residents.

CASE LOAD:

600-700 Cases per year (80% Cosmetic; 20% Reconstructive)

CALL RESPONSIBILITIES:

The fellow will assume Dr Jacono's call for his private practice and will also take attending otolaryngology call at a community hospital for six weeks for the entire fellowship year. The fellow is an integral part of the daily functioning of the office, and one of the strong points of this private practice fellowship is learning how to run an efficient and successful facial plastic surgery practice.

BENEFITS:

- *Health: Full Coverage; No Dental
- *Stipend: Approximately \$60,000 per year
- *Malpractice: Yes, Coverage through MLMIC
- *Tail Coverage: Yes
- *Other:

ADDITIONAL INFORMATION:

The fellowship offers a unique opportunity to become immersed in a busy plastic surgery private practice where the fellow's experience is hallmarked by exposure to high volume surgical case load of a wide breadth, ample opportunities for productive academic writing, hands on independent operative experience with aesthetic, reconstructive and craniofacial cases, and experience with successfully practice management.

Dr Jacono believes that a well balanced practice of both cosmetic and reconstructive surgery is essential to becoming a superior aesthetic surgeon. Approximately 30% of his cosmetic surgery case load is revision facial plastic surgery (revision face lifts, eyelid lifts and rhinoplasty).

The goal of this fellowship is to provide the opportunity for advanced training in facial plastic and reconstructive surgery, and to learn how to set up a well-run and successful aesthetic surgery practice. The fellow will experience all aspects of the practice, from initial consultation (utilizing digital imaging and morphing) through post-operative management. Emphasis is placed on practice management skills, including coding, establishing office based surgery facility accreditation, internal and external marketing, and public relations.

Philanthropy is a cornerstone to Dr. Jacono's practice. He is an active participant in the AAFPRS Face to Face program, and is a volunteer surgeon for Beyond Our Borders, a group of volunteer physicians who bring children from third world countries to the United States for reconstructive surgery for their facial deformities.

UNIVERSITY AFFILIATION:

University of California, Los Angeles

LICENSING REQUIREMENT:

California State License required.

APPOINTMENT LEVEL:

Clinical Instructor

OPERATING PRIVILEGES:

Ronald Reagan UCLA Medical Center, Greater Los Angeles Veteran's Administration Medical Center, Harbor-UCLA Medical Center, Olive View-UCLA Medical Center, Pueblo Surgery Center Santa Barbara

OPERATIVE EXPERIENCE:

Broad exposure to aesthetic surgery, trauma, congenital anomalies and reconstructive surgery.

RESEARCH:

Research is required. Active research projects include tissue engineering and laryngeal transplantation, laser surgery, minimally invasive surgery, osteoradionecrosis, and clinical outcomes research.

TEACHING RESPONSIBILITIES:

The appointment is as a Clinical Instructor, which involves supervising and teaching 25 residents. The fellow supervises a weekly facial plastic clinic at UCLA. The fellow supervises resident surgeries at UCLA Medical Center, the VA, and at UCLA-affiliated County Hospitals. The fellow acts as Director of a quarterly multi-institutional Los Angeles facial plastic surgery journal club.

CASE LOAD:

Dr. Keller is the fellowship director and Dr. Rawnsley is the co-director. Dr. Keller and Dr. Rawnsley specialize in facial aesthetic surgery. Fellowship faculty includes Dr. Blackwell, and Dr. Nabili and Dr. Kim. Dr. Blackwell specializes in head and neck reconstructive surgery with an emphasis on regional flaps and free flaps. Dr. Nabili specialized in facial aesthetic and Moh's defect reconstructive surgery. Dr. Kim specializes in facial aesthetic surgery, facial reconstructive surgery and particularly in facial nerve and facial reanimation procedures. The faculty members involved in this fellowship perform approximately 5,000 cases of facial plastic and reconstructive surgery per year that form the basis for the fellow's surgical experience. A recent fellowship graduate reported a total of 640 procedures, including 122 brow/face/neck lift procedures, 32 resurfacing procedures, 76 oculoplastic procedures, 93 septorhinoplasties, 23 facial reanimations, 20 cleft lip/palate/nose surgeries, 71 free flaps, and 54 locoregional flaps.

CALL RESPONSIBILITIES:

First call for Dr. Keller's patients. The fellow also takes attending call covering inpatient and emergency room consults for approximately 5 weeks per year. Residents take first call for inpatient care, inpatient consults, and emergency room consults.

BENEFITS:

- *Health: Provided.
- *Stipend: **\$65,800/year**
- *Malpractice: Provided.
- *Tail Coverage: Covered.
- *Other:

Rahul Seth, MD, FACS
Associate Professor

Contact E-Mail: Rahul.seth@ucsf.edu

<https://ohns.ucsf.edu/facialplastics>
<https://ohns.ucsf.edu/facialnerve>

UNIVERSITY AFFILIATION:
University of California, San Francisco

LICENSING REQUIREMENT:
California Medical License

APPOINTMENT LEVEL:
Clinical Instructor

OPERATING PRIVILEGES:
UCSF Medical Center; San Francisco General Hospital and Veteran's Administration Medical Center, San Francisco

OPERATIVE EXPERIENCE:
The fellow's responsibility will be to share coverage of cases with the two faculty members in the program, Drs. Knott and Seth. In a variety of clinical settings, the fellow will perform microvascular surgery (60-80 cases), rhinoplasty (50+ cases), mohs reconstruction (20-40 cases), treatment of facial paralysis (20+ cases), facial feminization (~20 cases), aging face (10-20 cases) and some exposure to trauma and cleft lip and palate, in-office fillers/neuromodulators/laser treatment. Operative independence will take place at the San Francisco General Hospital, the San Francisco Veteran's Hospital, and UCSF Medical Center, Parnassus campus.

RESEARCH:
There will be an abundance of research opportunities doing clinical projects, hypothesis-driven basic science, and outcomes studies. Collaboration can easily be established with PhD's and NIH funded Otolaryngology surgeons. As the leading publically funded department of Otolaryngology, UCSF offers ready access to biostatistical consultation and mentorship.

TEACHING RESPONSIBILITIES:
The fellow will supervise residents, participate in the facial plastic didactic sessions, quarterly facial plastic journal clubs and annual microvascular rodent laboratory and soft tissue dissection course and attend all education conferences.

CASE LOAD:

As above under operative experience: extensive experience in microvascular surgery, Mohs reconstruction, rhinoplasty, treatment of facial paralysis and expanding experience in aging face surgery.

CALL RESPONSIBILITIES:

The fellow will take call on an equal basis with the faculty, likely 2-4 weeks of call over the academic year.

BENEFITS:

- *Health: Full health benefits available, including family/spouse coverage
- *Stipend: PGY6 salary, approximately \$67, 000
- *Malpractice: Provided by the UCSF Medical Center
- *Tail Coverage:
- *Other: The fellow will be provided a lab coat and will be reimbursed for licensure and DEA application fees (if necessary). Also the fellow will have 4 weeks of vacation per year.

ADDITIONAL INFORMATION:

This fellowship offers a comprehensive experience with all aspects of contemporary reconstructive surgery, including microvascular surgery, melanoma repair, Mohs reconstruction, and facial reanimation. In depth experience in free tissue transfer includes fibula osteocutaneous, anterolateral thigh, radial forearm, radial forearm osteocutaneous, latissimus dorsi and gracilis free flaps. Opportunity is provided for an average of 1-2 flaps per week. Facial reanimation experience is provided with both open and endoscopic techniques and static and dynamic operations, including nerve grafting and microneurovascular flaps. Time with UCSF oculoplastics, dermatology, oral/maxillofacial, and general plastic surgery services will be provided. During the average week, 2 days is spent in the OR [or clinic with Dr. Knott](#) and 2 days [with Dr. Seth](#). The 5th day is spent independently at the SFVA or SFGH. A variety of private practice facial plastic surgery opportunities will also be available within the greater Bay area.

UNIVERSITY AFFILIATION:

University of Texas Medical School at Houston, Division of Facial Plastic Surgery, Dept. of Otolaryngology/Head & Neck Surgery

LICENSING REQUIREMENT:

Texas Medical License required; 6 month lead time necessary for processing.

APPOINTMENT LEVEL:

Instructor at Texas Health Science Center in Department of Otolaryngology, Division of Facial Plastic Surgery; this is a faculty appointment.

OPERATING PRIVILEGES:

Surgical assistance for the majority of cases in Dr. Kridel's practice; fellow is usually the primary surgeon for Face-to-Face patients and patients from the University; Full operating privileges at University with at least one day per month scheduled for the fellow at the County Hospital (LBJ). Additionally, the fellow will be the staff surgeon for call at the University 5 nights per month, backing up the residents; this should provide excellent opportunity for fellow cases. The fellow does many laser procedures himself in Dr. Kridel's office as well as some minor procedures and soft tissue filler and Botox injections. Cases may be available from the office for the fellow to be the primary surgeon; in the past this has included rhinoplasties and facelifts.

OPERATIVE EXPERIENCE:

The fellowship is in a clinical private cosmetic practice with major emphasis on nasal surgery (rhinoplasty, revision rhinoplasty, and septal perforation repair, etc.) (100+ cases), and facial rejuvenation (face lifts, forehead lifts, blephs, etc.) (300+ procedures). Many facial augmentation procedures and some hair replacement surgeries are also performed. Four lasers are in the office: vascular, CO₂, (regular, Ultrapulse and fractionated), Fraxel, hair removal. Ultherapy is also in the office. A year's operative listing is sent to all fellow applicants so that they can see the breadth of the practice.

RESEARCH:

Our computerized tally of over 28,000 patient records over 3 decades allows for long-term studies of nasal surgery and other procedures. The fellow will be involved in studying various new modalities; opportunities for studies and papers are always available, as we receive more invitations for writing and research than we can accommodate. Long-term follow-up and photographic documentation of thousands of patients are available for study. Fellows are expected to write more than just their one AAFPRS required paper. Fellows with previous writing experience are given preference in the selection process. Some fellows have written over four papers in their fellowship year, and some continue to write articles with Dr. Kridel for years afterwards.

TEACHING RESPONSIBILITIES:

Fellows are expected to help teach the University of Texas residents who rotate with us routinely. The fellow must prepare one grand rounds lecture to give at UT Grand Rounds. The fellow must attend UT conferences and actively participate in Facial Plastic Journal clubs and review sessions. Fellows are expected to know before arriving in Houston the routine operation of digital SLR cameras, classical facial views, and lighting; experience with computer imaging is valuable.

CASE LOAD:

(SEE ABOVE)

CALL RESPONSIBILITIES:

Fellows are expected to take first call for Dr. Kridel's practice; additionally, they will take faculty call at University 5 days a month.

BENEFITS:

- *Health: For fellow (provided through the University); does not cover spouse or family, for which the fellow would have to pay an additional amount
- *Stipend: \$65,000 annually, approximately
- *Malpractice: Through the University (Does not cover moonlighting)
- *Tail Coverage: Yes
- *Other: No more than three weeks a year total are available for meetings, taking the Boards (ABOto, ABFPRS), job hunting, illness, or personal time off including vacation. No time off is allowed around holidays as those are our busiest times. Specific times off must be requested well in advance so the clinical load schedule can be adjusted.

ADDITIONAL INFORMATION:

This fellowship is for those with prior facial plastic experience who already have a full understanding of the basics. Those with no experience will not benefit from the nuances presented. The goal of the fellowship is to make the candidate an expert in the field, to expose him/her to multiple techniques and methods, to stimulate the thought processes, and instill an aesthetic sensibility and a quest for lifelong learning and improvement. The fellow is fully integrated into the practice and becomes a team member. As most AAFPRS fellowships, this is a one year fellowship experience. This is primarily a cosmetic fellowship, and those desirous of a reconstructive year should not apply. Conversely, all fellows must obtain some reconstructive and trauma experience during the year, which is usually easily accomplished at the University. Additionally when Dr. Kridel is not in town (totaling about 2 months spread throughout the year), the fellow will spend some of that time with a MOH's surgeon, an oculoplastic surgeon, and several other AAFPRS fellowship trained surgeons when they do cosmetic or reconstructive cases. Computer Imaging is utilized with patients. Only those with a passion for facial plastic surgery who intend to limit their practice to this sub-specialty should apply.

This program is unable to accept International Medical Graduates for training.

UNIVERSITY AFFILIATION:
University of Kansas Medical Center

LICENSING REQUIREMENT:
Kansas and Missouri License

APPOINTMENT LEVEL:
Clinical Instructor

OPERATING PRIVILEGES:
Fellow will function as a clinical instructor in the Department of Otolaryngology with full clinical privileges

OPERATIVE EXPERIENCE:
The fellow's operative experience will expose them to the full spectrum of Facial Plastic Surgery. They will have graduated responsibility when operating alongside the director/co-director while also working with more autonomy at the VA Medical Center. We expect them to be capable of independent operative management at the completion of fellowship. The responsibilities for dressing changes and suture removal will be shared equally among the director, co-director, fellow, and residents at our institution.

RESEARCH:
The fellow is expected to complete at least one research project accompanied by a manuscript submission.

TEACHING RESPONSIBILITIES:
The fellow would be responsible for teaching didactic lectures as well as leading monthly Facial Plastics Case Conferences with the co-director. The fellow would serve as junior faculty and **is** responsible for teaching residents in the OR and clinical setting.

CASE LOAD: The fellow's case load will include the entire breadth of facial plastic and reconstructive surgery and would average 7-10 cases a week.

CALL RESPONSIBILITIES:
The fellow will be placed in the attending call schedule to cover ENT and maxillofacial trauma. This is typically 2 weeks per 6 month period.

BENEFITS:

- *Health: Employee may choose from our two preferred provider plans. The majority of the monthly premium is covered by the University.
- *Stipend: \$62,342 (PGY-6 Level)
- *Malpractice: Provided by the KS Healthcare Stabilization Fund
- *Tail Coverage: Covered by the KS Healthcare Stabilization Fund
- *Other: Accrue up to 22 days a fiscal year, vacation time
FMLA, entitled to up to 12 weeks of leave for illness, a new child, or to care for sick family members; 6 days paid for bereavement; 3.7 hours for each 80 hours paid, sick leave; eligible for paid holidays; the fellows will have access to the faculty lounge which provides free breakfast and lunch; the fellow will be provided 3 lab coats

Phillip R. Langsdon, M.D., F.A.C.S.
7499 Poplar Pike, Germantown
Tennessee 38138
(901) 755-6465
(901) 757-5543 (FAX)

UNIVERSITY AFFILIATION:

University of Tennessee Health Science Center, Department of Otolaryngology-Head & Neck Surgery, Division of Facial Plastic Surgery

RANK: Instructor, Division of Facial Plastic and Reconstructive Surgery, UTHSC Dept. of Otolaryngology/HNS

LICENSING REQUIREMENT:

Tennessee Medical License, DEA

APPOINTMENT LEVEL:

Clinical Instructor, University of Tennessee Health Science Center

OPERATING PRIVILEGES:

Germantown Ambulatory Surgical Center

Baptist Memorial Hospital

Methodist University Hospital

The Regional Medical Center, Memphis

OPERATIVE EXPERIENCE:

Established in 1986, the Langsdon Clinic provides a full range of facial aesthetic surgical and non-surgical services, and functions as a full-time training site for the residents in the Department of Otolaryngology-Head & Neck Surgery, University of Tennessee Health Science Center-Memphis. The clinic also has a CON state licensed surgical facility.

The Langsdon Clinic is 100% cosmetic. The fellow will first assist with full range of facial cosmetic surgery 2 to 2 1/2 days per week. Clinic visits take place 1 1/2 to 2 days per week. Surgical cases include: rhinoplasty, face lift (mini-lifting, deep plane, extended SMAS, extensive lifting), blepharoplasty, chemical peel, otoplasty, chin augmentation, brow/forehead lifting, liposuction (face & neck) laser resurfacing, etc.

Fellow [will](#) have the opportunity for his/her own cosmetic case load, serving as primary surgeon on fellow designated facial cosmetic patients. [Fellow will be exposed to a high-volume neuromodulator and filler practice.](#) [He/she will also run his/her own injectable/laser aesthetic clinic on Friday afternoons.](#)

The fellow participates in all cosmetic case local anesthesia, suturing and clinic post-operative care including dressing application and removal, suture placement and removal. [Fellow answers second call on all clinic patients.](#)

[This fellowship participates with the University of Tennessee Health Science Center, Dept. of Otolaryngology-Head & Neck Surgery as a Clinical Instructor. This academic experience includes trauma, reconstruction, and functional rhinoplasty. Fellow will serve as primary surgeon/staff on facial trauma cases or rhinoplasty on Friday mornings and staff a clinic at the Regional One Medical Center Monday afternoons. Fellow will also](#)

operate at Methodist University Hospital ½ day per week. Methodist Hospital cases may include microvascular flaps, pedicle flaps, facial reanimation, and local skin cancer resections/repair, or functional nasal surgery.

RESEARCH:

As per AAFPRS requirements

TEACHING RESPONSIBILITIES:

Instructor to UT Residency Program

- 1 lecture per quarter for residents (4 per year)
- Assistant course director Langsdon Clinic Resident Botox/Filler course
- Assistant course director Resident Soft Tissue/ Suturing Course
- 1 Grand Rounds to entire faculty on topic of interest prior to end of academic year

Scholarship

- 1 paper (review article acceptable) submitted for publication prior to completion of fellowship
- 1 research presentation at annual UTHSC Department of Otolaryngology-HNS Cocke Research Symposium

CASE LOAD:

There are 400+ cosmetic cases and 100-700 non cosmetic cases (number depends upon the activity of the fellow). Cosmetic surgery cases will be done every Tuesday, Wednesday, and some Thursday mornings at the Langsdon Clinic CON licensed surgery center. On alternate Friday mornings fellow will be involved with trauma, facial nerve, mandible reconstruction, facial reconstruction, grafts, local/regional /free flaps, and functional rhinoplasty at the University of Tennessee facilities. In addition, fellow will carry out his/her own peeling laser and office aesthetic procedures during regular office hours and will be able to schedule his/her own cosmetic surgical cases. Nearly 100% of scheduled operative opportunities will be full. When Dr. Langsdon is out of town, fellow will continue to run his/her own clinic, work with University cases, and visit other area surgeons.

CALL RESPONSIBILITIES:

Potential +- 4 nights per month with university. Fellow takes call for private cosmetic patients.

BENEFITS:

- *Health: Medicare Payroll (1.45%) \$890; \$10,000 (retirement; health)
- *Stipend: **\$61,400**
- *Malpractice:
- *Tail Coverage:
- *Other: SS Payroll Tax (6.2%) 3,806
- Total Benefits \$86,096 *approval in process**

Photo training, personal photo, lab coats, some lunch meals provided.

No more than three weeks a year total is available for meetings, taking board exams, illness, job hunting, house hunting or personal time off including vacation. Time off around holidays are limited and must be coordinated with surgical schedule and clinic back up coverage. Specific times off must be requested well in advance and coordinated with office schedule.

Wayne F. Larrabee, MD
600 Broadway
Suite 280
Seattle, Washington 98122
(206) 386-3550
(206) 386-3553 (FAX)

UNIVERSITY AFFILIATION:

University of Washington

LICENSING REQUIREMENT:

Washington State Medical License

APPOINTMENT LEVEL:

Clinical Instructor

OPERATING PRIVILEGES:

University of Washington Medical Center, Seattle Children's Hospital, Veteran's Administration (VA) Hospital, Harborview Medical Center, Larrabee Center for Plastic Surgery

OPERATIVE EXPERIENCE:

The fellowship is evenly split between cosmetic (aging face, cosmetic rhinoplasty) and reconstructive (post-Mohs reconstruction, trauma, functional rhinoplasty, facial paralysis, microtia reconstruction, and skull base) surgical cases. The fellow operates with Dr. Wayne Larrabee two to three days per week in his private office at the Larrabee Center for Plastic Surgery. **The fellow** also operates with Dr. Sapna Patel at the Larrabee Center when possible. One day a week is spent operating at Harborview Medical Center with Dr. Kris Moe, a day a week with Dr. Michael Nuara at the Virginia Mason Clinic, and another day week at the University of Washington Medical Center with Dr. Amit Bhrany. Two days a month are spent with Dr. Bhrany and Dr. Kathy Sie performing microtia reconstruction at Seattle Children's Hospital. The fellow is directly involved in resident teaching in the operating room at Harborview Medical Center and the University of Washington Medical Center. **The fellow will typically go on one or more medical missions.**

RESEARCH:

The fellow is encouraged to perform a research project within the Department of Otolaryngology-Head and Neck Surgery. Department funds may be available for small projects after the project is approved by the departmental research committee.

TEACHING RESPONSIBILITIES:

The goal of this fellowship is to train individuals committed to an academic career in facial plastic surgery. The fellow actively participates in didactic sessions with the residents and has been involved in teaching a yearly University of Washington Facial Plastic Surgery Course as well as scheduled soft tissue courses.

CASE LOAD:

Typical weekly schedule:

- Monday – Larrabee Center for Plastic Surgery (Dr. Larrabee)
- Tuesday – Virginia Mason Clinic (Dr. Nuara, two Tuesdays per month at Seattle Children’s Hospital for microtia cases (Drs. Bhrany and Sie)
- Wednesday – Larrabee Center for Plastic Surgery (Dr. Larrabee)
- Thursday – Harborview Medical Center (Dr. Moe)
- Friday – University of Washington Medical Center (Dr. Bhrany)

CALL RESPONSIBILITIES:

UW Department of Otolaryngology call covers Harborview Medical Center, University of Washington Medical Center and Puget Sound VA Medical Center, approximately 3-4 weeks per year

Larrabee Call: The fellow is responsible for covering Dr. Larrabee's patients depending on Dr. Larrabee's schedule (primarily when he is out of the office).

Virginia Mason call: About 3 weeks per year

BENEFITS:

- *Health: Provided; depending on plan chosen, employee pays small portion of premium.
- *Stipend: **\$71,000**
- *Malpractice: Provided by the University of Washington Physicians
- *Tail Coverage: Provided by the University of Washington Physicians
- *Other:

ADDITIONAL INFORMATION:

The program is primarily interested in fellowship candidates committed to a full time academic career in facial plastic surgery. Faculty include Drs. Wayne Larrabee, Craig Murakami, Kris Moe, **Michael Nuara**, Amit Bhrany, **Sapna Patel**, Kathy Sie, and Maya Sardesai.

UNIVERSITY AFFILIATION:

The Mount Sinai School of Medicine

LICENSING REQUIREMENT:

New York State License required.

APPOINTMENT LEVEL:

Instructor

OPERATING PRIVILEGES:

As Attending: Veterans Affairs Medical Center, Bronx, NY; Elmhurst Hospital Center, Elmhurst, NY.

As House Staff: Mt. Sinai Medical Center.

OPERATIVE EXPERIENCE:

The fellow acts as first assistant as well as co-primary surgeon with Dr. Lawson (~ 3 days/week) at Mount Sinai Medical Center. Cases are performed as attending at the Bronx VA Medical Center and Elmhurst Hospital Center. The fellow maintains a personal facial plastics clinic at both the VA and Elmhurst hospital center (1/2 day weekly at each location) where they generate their own cases. The fellow acts as supervisor to residents at these locations as well.

Cases at all locations include a mix of rhinoplasty (primary, revision, cosmetic and functional), otoplasty, mentoplasty, MOHS reconstruction, maxillofacial trauma, aging face injectable fillers and sinonasal/skull base surgery.

RESEARCH:

Ample opportunities exist for both basic science and clinical research through the Mount Sinai School of Medicine and the Veteran's Affairs Medical Center, Bronx, NY.

TEACHING RESPONSIBILITIES:

Lectures to medical students and residents; and teaches residents in the operating room.

CASE LOAD:

400-600 cases.

CALL RESPONSIBILITIES:

As attending: Bronx VA Medical Center and Elmhurst Hospital Center

BENEFITS:

- *Health: BCBS
- *Stipend: \$77,000 + call stipend for coverage at Elmhurst Hospital, NY
- *Malpractice: Yes
- *Tail Coverage: Yes
- *Other:

ADDITIONAL INFORMATION:

This fellowship involves broad exposure to all aspects of facial plastic and reconstructive surgery. There is graduated independence under the direction of Dr. Lawson and a significant opportunity for autonomy in a variety of environments. The fellow has the opportunity to go on a yearly mission trip abroad where the emphasis is on craniofacial and reconstructive surgery. [Additional faculty available for fellow to participate in office and operating room procedures.](#)

Updated 1/6/19

Corey S. Maas, MD, Director
2400 Clay Street
San Francisco, California 94115-1809
(415) 567-7000
(415) 567-7011 (FAX)

UNIVERSITY AFFILIATION:

University of California - San Francisco (Department of Otolaryngology)

LICENSING REQUIREMENT:

California License required

APPOINTMENT LEVEL:

Fellow in Facial Plastic Surgery

OPERATING PRIVILEGES:

The San Francisco Rejuvenation Center; California Pacific Medical Center; [Greenbrae Surgery Center](#); Eldorado Surgical Center; Mills Peninsula Medical Center

OPERATIVE EXPERIENCE:

There are 3 major areas of competency and training in this fellowship program.

- Clinical experience in aging face surgery and surgical treatment of traumatic and congenital deformities (ex. Rhinoplasty, otoplasty, etc.)
- Clinical excellence in cosmetic injections and minimally invasive aesthetic surgery
- Proficiency in the planning, treating, and execution of clinical research, including FDA and non-FDA clinical trials, case series and reports.

The fellow spends three to four days per week in surgery. On these days, the fellow will assist in all aspects of Facial Cosmetic Surgery and some Reconstructive Surgery, including hair restoration surgery with emphasis on surgery of the aging face and Rhinoplasty, Lasers and a variety of other energy-based (technologies). The fellow will learn a variety of approaches and technical means to address conditions through working with Dr. Maas two surgical days per week, and with Faculty – two Board Certified Facial Plastic Surgeons, Dr. David Kim (Rhinoplasty) and Dr. James Newman (Aging Face, Rhinoplasty, Lasers) and one elective half day with Dr. Stuart Seiff, an Oculoplastic Surgeon who collectively offers five surgical days per week. Surgical assignments are determined on a biweekly basis. When not performing surgery with Dr. Maas, the fellowship is set up in assigned block time as a rotation with the faculty based upon the cases being performed.

In addition to time spent in surgery, the Fellowship’s clinical practice includes in-depth learning and performance of minimally invasive procedures such as cosmetic injections from minor (Botox, et al,) to major one- to two-hour filler combination cases that [often](#) employ [several](#) different fillers addressing specific areas of anatomic concern. Pre-operative care includes counseling on the procedures, risks, benefits and alternatives post-operative care includes all aspects of wound care and management, dressings, drains and management.

RESEARCH:

The Research Center at the Maas Clinic enjoys a National presence in the design and conduct of research opportunities for both basic and clinical research. Through this Unit, the Maas Clinic maintains an active role in evaluating emerging technologies by regularly participating in clinical trials. Two days per week, the fellow will join the research staff and undergo Delegation of Authority on a number of on-going [FDA](#) and non-FDA

clinical trials. Time is reserved for work as a co-primary investigator, sub-investigator, and/or as an assistant or associate clinical research coordinator. The fellow will experience all aspects of protocol management and care of research subjects, which includes performing investigational interventions depending upon the study objectives and protocols.

TEACHING RESPONSIBILITIES:

The fellow **may** provide supervision for residents in clinic and the operating room. He or she may also assist in the University o California-San Francisco facial plastic surgery courses for the residents in the spring and Grand Rounds at the University.

CASE LOAD:

The fellow has the opportunity to participate in up to 500 or more cosmetic and surgical cases. The fellow will review cases performed with the Fellowship Director and faculty in clinic or OR, and is responsible for proper dictation of surgical cases as well as obtaining copies of dictated operative reports while assisting with the Fellowship Faculty.

CALL RESPONSIBILITIES:

The fellow will primarily be on call in Dr. Maas’ practice, but may share call in the private practices of the Fellowship Faculty. He or she may be able to take consultant and Emergency Room call for California Pacific Medical Center (Pacific Campus) as paid “moonlighting” two to four weeks per year (additional weeks may be requested for additional stipend).

BENEFITS:

- *Health: Available consistent with clinic policies and procedures
- *Stipend: \$24,000 (\$60,000 + based on amount of ER call and “moonlighting” work) in aesthetic clinic
- *Malpractice: Provided
- *Tail Coverage: Provided
- *Other: Mobile phone is provided and carried at times for after-hour calls.

Accruing at a rate of four hours per month, the Fellow may accumulate a maximum of six paid sick leave days during the Fellowship and is offered vacation when appropriate in accordance TMC standards. Lab coats and other needed clinical items are provided.

ADDITIONAL INFORMATION:

Although the fellow will spend the majority of time gaining surgical, research, and minimally invasive procedure experience with Drs. Maas, the fellow will also spend time learning with Dr. David Kim (Rhinoplasty), James Newman (FPS), Stuart Seiff (and/or partner Oculoplastic Surgeons, Eve Moscato) and part-time faculty, Dr. Sheldon Kabaker at the Maas Clinic (hair restoration).

A minimum of 15 forms of energy-based technologies and treatments are integral parts of learning in the Maas Clinic’s Appearance Care Center (ACC), a medical spa, and in the private practices of the Fellowship Faculty. At least one day per week is available for “moonlighting” in the ACC where the fellow, once credentialed, provides treatment including ablative and non-ablative laser, intense pulsed light, cosmetic filler and Botulinum Toxin Therapy, etc.. Once competency has been assessed and achieved, the Fellow may become a paid primary service provider outside of clinic hours and rotations. As this is a primary method of practice building in a modern cosmetic practice, Fellows leave with strong fundamentals in this area.

The Fellow is treated as an Associate in the practice and is given both the honor and responsibilities of being a primary caretaker and investigator for the Maas Clinic's patients and subjects, respectively. A similar approach and opportunity is offered with an outstanding faculty that includes thought leaders and experts from within Facial Plastic Surgery and Ophthalmic Plastic Surgery. This fellowship is best suited for those with a solid foundation in Facial Plastic Surgery who wishes to learn and employ the technical details that allow one to become a Facial Plastic Surgeon and Researcher.

E. Gaylon McCollough, MD
McCollough Plastic Surgery Clinic
350 Cypress Bend Drive, Box 4249
Gulf Shores, Alabama 36547-4249
(251) 967-7600
(251) 967-7647 (FAX)
www.drmccollough.com

UNIVERSITY AFFILIATION:

Dr. McCollough is Adjunct Faculty at the University of South Alabama; We are working towards establishing appointments for the fellows.

LICENSING REQUIREMENTS:

Alabama State Medical License and DEA required.

UNIVERSITY APPOINTMENT LEVEL:

To be determined, seeking Clinical instructor Level for Fellows

OPERATING PRIVILEGES:

The Fellow has privileges at the McCollough Plastic Surgery Clinic, South Baldwin Regional Medical Center, and Thomas Hospital.

OPERATIVE EXPERIENCE:

The Fellow assists Dr. McCollough, as well as other physicians in the clinic, in surgery and with the preoperative assessment and ongoing patient care. The practice is expanding There is a predominance of aging face surgery but essentially all aspects of facial plastic surgery are now represented except for major flap reconstruction, microvascular tissue-transfer, craniofacial and cleft palate. The fellow receives extensive hands on experience in the use of neuromodulators, fillers, fat transfer, radiofrequency skin tightening, and a variety of laser technologies. There is a growing trauma and skin neoplasm experience.

In addition, after the initial 6 months the fellow can begin to perform procedures independently but under the limited supervision of the co-directors. This includes all aspects of facial plastic surgery including cosmetic cases. These are patients the fellow has been able to recruit and evaluate during the course of the year.

RESEARCH:

The fellows must carry out an original research project as part of the fellowship requirements. This is submitted for publication to the JAMA Facial Plastic Surgery journal or other peer-reviewed journal upon completion

TEACHING RESPONSIBILITIES:**INCLUDING CONFERENCE RESPONSIBILITIES:**

The fellows are members of the teaching faculty for the yearly SOFT TISSUE course held at the University of South Alabama. They participate in the fellowship monthly facial plastic surgery Journal Club / Compendium Review Conference. They participate in the monthly Wednesday Fellow's case conference. There is a weekly didactic facial plastic surgery conference that the fellows attend. Attendance at national conferences is encouraged on a case-by-case basis.

CASE LOAD:

Approximately 250 cases as First Assistant and 5-10 cases as surgeon in addition to the 100+ injectable and small soft tissue procedures performed.

CALL RESPONSIBILITIES:

The call schedule is divided between the two fellows.

BENEFITS:

- *Health: Provided for the fellow and his/her family.
- *Stipend: \$1,400 per month stipend. In addition there are other sources of income generation for the fellows in the clinic for medical services performed during routine clinic hours. Recent fellows have generated an excess of more than \$30,000 of additional income. This additional income may potentially increase with the newly established facial plastics call at the hospital.
- *Malpractice: Provided
- *Tail Coverage: Provided
- *Other: Ten vacation days per year.

ADDITIONAL INFORMATION:

Moonlighting is allowable.

The fellows are responsible for the pre- and post-operative care of the patients, and will have their own patients.

They are able to perform surgery on their own patients after six months.

This program does accept International Medical Graduates for training providing Visa and Alabama Licenses are duly procured.

Philip J. Miller, MD FACS
60 East 56th Street
3rd Floor
New York, New York 10022
(212) 750-7100
(212) 750-7101 (fax)

UNIVERSITY AFFILIATION:

New York University School of Medicine, Department of Otolaryngology

LICENSING REQUIREMENT:

New York State Unrestricted Medical License

APPOINTMENT LEVEL:

Instructor of Clinical Otolaryngology (Faculty Appointment), NYU School of Medicine

OPERATING PRIVILEGES:

Full attending privileges at NYU Langone Medical Center, Bellevue Hospital, and Manhattan Eye, Ear and Throat Hospital.

OPERATIVE EXPERIENCE:

The fellow will be exposed to and participate in the full range of facial plastic surgery. Dr. Miller's practice is 90% cosmetic and 10% reconstructive. Procedures are performed in Dr. Miller's accredited office based surgical facility. Drs. Pastorek operates at Manhattan Eye and Ear hospital and Dr. Rosenberg operates at his accredited office based surgery facility. . Procedures include facelifts (deep plane, SMAS, short flap) , neck lifts, mid-face lift, forehead lifts, liposuction, fat injections, blepharoplasties; septorhinoplasty; otoplasty, laser skin resurfacing; facial implants: chin, jaw, cheek, nose, temple; lip surgery, non-invasive treatments such as Botox®, and fillers, radiofrequency and ultrasound skin tightening, and skin care. At the NYU Campus the fellow will work with Dr. Judy Lee and **Jeffrey Markey and** participate in the full range of facial trauma, MOH's reconstruction and facial reanimation; The Bellevue Hospital experience offers the fellow an opportunity to treat their own patients, operate and teach residents under the supervision of senior ABFPRS faculty. The fellow will have the opportunity to perform as primary surgeon in over 200 cases. The fellow may have the opportunity to act as the primary surgeon on his/her private cases in the later stage of the fellowship.

RESEARCH:

Dedicated time is allotted each week to plan and complete at least one major clinical research project suitable for presentation at a national meeting and subsequent publication. In addition numerous opportunities to co-author invited book chapters and journal articles are available.

TEACHING RESPONSIBILITIES:

The fellow will be the teaching surgeon, with senior attending supervision when needed, in all resident cases at Bellevue Hospital and participate in the weekly FPS conference.

CASE LOAD:

The fellow will have the opportunity to perform as primary surgeon over 200 cases. He will assist on an additional 300 cases, including approximately 100 rhinoplasties, 75 facelifts, 50 blepharoplasties, 20 forehead lifts, and 25 cheek and chin implants.

CALL RESPONSIBILITIES:

The fellow will take weekday first call for Dr. Miller's private patients. There will be no in-house or general otolaryngology call. The fellow will be expected to be available as a resource for NYU ENT residents who have questions about complex facial plastic surgery emergencies.

BENEFITS:

- *Health Full medical and dental benefits.
- *Stipend: Annual salary commensurate with PGY 6; \$79, 921 in 2017
- *Malpractice: Full attending level coverage provided.
- *Tail Coverage: N/A
- *Other:

ADDITIONAL INFORMATION:

The fellow's week is divided between Bellevue Hospital / NYU Medical Center with Dr. Lee, the private office and OR with Dr. Miller and at MEETH with Drs. Pastorek and Rosenberg. The fellow will be the teaching surgeon, commensurate with their knowledge and abilities, at Bellevue Hospital. They will run the Facial Plastic Surgery clinic at Bellevue Hospital. The fellow will spend one to two days with Dr. Miller assisting in surgery. At NYU, the fellow will attend one day of office hours with Dr. Lee and **Dr. Markey** and first assist Dr. Lee **and Dr. Markey** with Mohs repairs and other reconstructive surgery. With Drs. Pastorek and Rosenberg, the fellow will spend one day with each in the operating room. There will be limited opportunity for fellow cases in the private setting including aging face and injectable cases. All hospitals and office hours are within Manhattan and easily accessible by taxi or public transportation. Library and educational service are provided.

Opportunities to visit other facial plastic surgeons, oculoplastic surgeons, and hair transplantation specialists, are available and encouraged. The fellow will also become acquainted with the daily operations of both a private facial plastic surgery practice as well as the nuances of an academic FPS practice. The fellow will be given the opportunity to spend one or two weeks on a mission trip consisting of cleft lip and cleft palate exposure, and microtia reconstruction.

UNIVERSITY AFFILIATION:
None

LICENSING REQUIREMENT:
California State Medical License, Federal DEA, ACLS Certification

APPOINTMENT LEVEL:
Fellow has hospital privileges at El Camino Hospital

OPERATING PRIVILEGES:
1) El Camino Hospital Otolaryngology – Head & Neck Surgery, Facial Plastic Surgery
2) Los Altos/Waverley/Campbell/Forest Surgery Centers

OPERATIVE EXPERIENCE:
This fellowship offers in-depth exposure to the full breadth of facial plastic and reconstructive surgery found in a private practice setting. The fellow experience will be based in the offices of the director and two co-directors. The fellow also has exposure to a diverse faculty of specialized facial plastic and oculoplastic surgeons in the area.

Directors:

Dr. Mittelman runs a busy practice focused on cosmetic surgery and non-surgical interventions.
Drs. [David Lieberman/Sachin Parikh](#) built a robust practice that includes the full breadth of cosmetic surgery, Mohs reconstruction, and hair restoration.

Multi-Specialty Faculty

- 1) Dr. Jill Hessler – Facial Plastic Surgeon with a busy cosmetic practice that includes aging face surgery, rhinoplasty, and hair restoration.
- 2) Dr. Umang Mehta – Facial Plastic Surgeon who specializes in aesthetic, reconstructive, and revision rhinoplasty using open structure rhinoplasty techniques.
- 3) Kimberly Cockerham – Oculoplastic Surgeon with busy functional and cosmetic practice.
- 4) Dr. Raj Kanodia – Exclusive endonasal rhinoplasty practice

In-depth experience in:

Facial cosmetic surgery: deep-plane and mini-facelift, external and endonasal rhinoplasty, revision rhinoplasty, lip lift, fat transposition transcutaneous and transconjunctival blepharoplasty, facial fat grafting, facial implants, forehead lift, otoplasty.

Nonsurgical interventions: advanced techniques in the full range of fillers and neuromodulators. Medium depth and superficial chemical peels, CO2 and erbium laser, and nonsurgical skin tightening including Ultherapy and microneedling (including RF microneedling). Education and exposure to the full complement of medspa services available including skin care.

Facial reconstruction: Mohs reconstruction including paramedian forehead flaps, interpolated cheek flaps, and local advancement flaps.

Hair restoration: follicular unit extraction (FUE) for the head, beard and eyebrow. Advanced techniques and care for non-surgical hair restoration.

RESEARCH:

Ongoing clinical research on cosmetic and reconstructive topics is encouraged throughout the year. One clinical paper is required by AAFPRS.

TEACHING RESPONSIBILITIES:

The fellow will present to Otolaryngology residents on a quarterly basis on topics in facial plastic and reconstructive surgery. Participation in FPRS journal club is required.

CASE LOAD:

Well over 1000 individual surgical case codes with the directors and faculty.

Well over 1500 nonsurgical facial rejuvenation cases including injectables, laser cases, and skin tightening.

Ample opportunity for fellow to generate his/her own surgical cases and maintain a robust nonsurgical cosmetic practice.

CALL RESPONSIBILITIES:

Primary call for Dr. Mittelman. Weekly primary call for co-directors. No ER or trauma call.

BENEFITS:

*Health: Provided for the fellow

*Stipend: \$44,000/year plus bonuses for exceptional contributions as determined by director.

*Malpractice: provided. No tail coverage.

*Tail Coverage:

*Other: One paid meeting per year selected by directors.

ADDITIONAL INFORMATION:

This fellowship offers comprehensive training in the heart of silicon valley. By training here, the fellow should become equipped to offer the full range of cosmetic and reconstructive services to future patients and finish feeling confident to build a practice in a private practice or academic environment. In addition to advanced training in surgical and nonsurgical techniques, the fellow will be exposed to practice management, marketing and business development.

Moonlighting:

Optional moonlighting opportunity with a local Ear, Nose and Throat group, involving primarily office coverage and ER call. Many past fellows have greatly enjoyed the experience and are well compensated for their contribution.

Updated 1/3/19

*Sam P. Most, MD
Stanford School of Medicine
Department of Otolaryngology-Head & Neck Surgery
801 Welch Road
Stanford, California 94305-5739
(650) 725-6500
(650) 496-2502 (FAX)*

UNIVERSITY AFFILIATION:

The fellow will serve as Instructor/Faculty in the Department of Otolaryngology at Stanford University School of Medicine. Note that this is the only fellowship sanctioned by the Department of Otolaryngology and Division of Facial Plastic Surgery at Stanford University.

LICENSING REQUIREMENT:

California license is required, and must be a U.S. citizen

APPOINTMENT LEVEL:

Staff physician at Stanford and Department of Veterans Affairs, Palo Alto Health Care System

OPERATING PRIVILEGES:

Operating privileges are available and required for Stanford University Medical Center, the Lucille Packard Children's Hospital and the Palo Alto Veterans Healthcare System.

OPERATIVE EXPERIENCE:

The Division of Facial Plastic and Reconstructive Surgery and the Department of Otolaryngology at Stanford University School of Medicine have two full time Facial Plastic Surgeons (Drs. Most and [Pepper](#)) who actively participate in fellow training. Furthermore, the fellow may spend time with private facial plastic surgeon for additional clinical exposure. Dr. Kay Chang performs microtia and other congenital repairs and is a member of the fellowship faculty. The fellow has the option of spending time with other faculty in this Department or others (such as Oculoplastic or Dermatology) if desired.

The clinical experience will include exposure to aesthetic surgery of the face, including emphasis on rhinoplasty and surgery of the aging face. In addition, the fellow will be exposed to reconstructive case, including maxillofacial trauma, repair of cutaneous defects, and reconstruction of the nasal airway (functional rhinoplasty). Through the fellow clinic, the fellow has the opportunity to generate a significant number of his/her surgical cases.

RESEARCH:

The fellow is expected to generate at least one scholarly project in either basic or clinical sciences in preparation for an academic career. The Department of Otolaryngology and the Stanford University of School of Medicine provide access to numerous resources for clinical and basic science research.

TEACHING RESPONSIBILITIES:

The fellow is an instructor and clinical faculty in the Department of Otolaryngology at Stanford University School of Medicine and is expected to participate in regular teaching conferences as well as supervising residents.

CASE LOAD:

Good mix of cosmetic and reconstructive cases; emphasis on Rhinoplasty (both cosmetic and functional) and aging face surgery; good exposure to non-invasive techniques.

CALL RESPONSIBILITIES:

Rotate calls with faculty members which are approximately every sixth week on call at Stanford, every third week at the VA.

BENEFITS:

- *Health: Yes, through Stanford/Veterans Affairs Medical Center
- *Stipend: \$60,000 per year (approximately)
- *Malpractice: Yes, through Stanford/Veterans Affairs Medical Center.
- *Tail Coverage: Yes
- *Other:

ADDITIONAL INFORMATION:

The Division of Facial Plastic Surgery is interested in fellowship candidates committed to a full-time academic career in Facial Plastic Surgery. The Fellows spend time at Stanford and the Palo Alto Veterans Administration (VA); the two hospitals are approximately 5 miles apart.

UNIVERSITY AFFILIATION:

University of Michigan

LICENSING REQUIREMENT:

State of Michigan

APPOINTMENT LEVEL:

Clinical Instructor, University of Michigan, Department of Otolaryngology, Division of Facial Plastic and Reconstructive Surgery

OPERATING PRIVILEGES:

Full privileges at the University of Michigan Hospitals including ambulatory surgery facilities and the Veteran's Administration Hospital.

OPERATIVE EXPERIENCE:

The fellowship provides a broad base, hands-on exposure to a wide diversity of facial plastic and reconstructive surgical procedures including cosmetic and reconstructive surgery. Opportunities are available to observe a wide variety of microsurgical procedures if desired.

RESEARCH:

Each fellow must perform some clinical or basic science research as required by all AAFPRS fellowship programs. Animal research facilities and limited funding is available.

TEACHING RESPONSIBILITIES:

Residents are present at many of the surgical procedures and the fellow is responsible along with the attending physician to supervise them. The fellow will staff resident surgical procedures at the Veteran's Administration Hospital. Fellows may also be requested to present formal didactic lectures. Travel allowance (\$1,200) is given for educational studies in facial plastic and reconstructive surgery.

CASE LOAD:

A fellow has two clinics per month at the University Hospital in which to generate personal surgical cases. The fellow will also first assist on most of the procedures performed by faculty.

The fellow will be primary surgeon on all procedures performed at the Veteran's Administration Hospital.

CALL RESPONSIBILITIES:

Integrated with other faculty members.

BENEFITS:

- *Health: Health and dental benefits provided.
- *Stipend: Completion of six years Residency, House Officer Level VII Salary will be \$75,324
If you have not completed six years Residency, House Officer Level VI Salary will be \$71,755
- *Malpractice: Provided.
- *Tail Coverage: Provided.
- *Other: 22 vacation days; 7 holidays plus 4 season days; lab coats

ADDITIONAL INFORMATION:**Educational Goals and Objectives:**

Goals: The goal of the fellowship is to provide an experience that covers the broad range of disciplines within facial plastic and reconstructive surgery including the contemporary methods of aesthetic surgery.

Objectives:

1. Gain proficiency in both the surgical and no-surgical management of the aging face
2. Extensive understanding of facial reconstruction after Mohs surgery
3. Proficiency in the management of maxillofacial trauma using state-of-the-art techniques
4. Proficiency in Rhinoplasty procedures
5. Effective management of congenital and acquired abnormalities of the head and neck
6. Development and execution of a publishable and clinically meaningful research project
7. Successful completion of the written and oral exam for the American Board of Facial Plastic & Reconstructive Surgery

A major emphasis of the fellowship is in the area of facial cosmetic surgery including most of the contemporary methods of aesthetic surgery. There is extensive exposure to facial trauma and facial reconstruction using local flaps.

UNIVERSITY AFFILIATION:

LICENSING REQUIREMENT:

- 1) Completion of US-based Otolaryngology-Head and Neck surgery residency
- 2) California Medical License

APPOINTMENT LEVEL:

- Attending Surgeon, Division of Otolaryngology, Cedars-Sinai Medical Center

OPERATING PRIVILEGES:

- Cedars-Sinai Medical Center
- La Peer Surgery Center (Dr. Azizzadeh's primary surgical facility)
- Beverly Hills Surgery Center (Dr. Nassif's primary surgery facility)

OPERATIVE EXPERIENCE:

A comprehensive and deep cosmetic, functional and reconstructive surgery training, fellows gain exposure and hands-on experience in a wide range of procedures, including: primary, revision, ethnic and Asian rhinoplasty, with extensive cartilage and fascial grafting; deep plane and SMAS-imbrication facelift; upper and lower blepharoplasty, including fat repositioning; browlift (endoscopic, direct and pre-trichial); chin augmentation; hair transplantation; jowl and submental liposuction; buccal fat reduction; CO2 laser resurfacing; local and regional flaps, including MOHs reconstruction; advanced facial animation, including gracilis free flaps, cross-face nerve grafting and selective neurolysis; advanced oculoplastic reconstruction; and migraine trigger release.

RESEARCH:

Directors are involved in multiple clinical research projects and fellows are expected to participate in at least one project during their fellowship year (usually submitted as their AAFPRS research requirement). All other faculty have clinical and/or basic science involvement across a wide range of topics and fellows are encouraged and welcome to participate in those that are of interest to them.

TEACHING RESPONSIBILITIES:

Fellows will be involved in organizing and leading several Los Angeles-wide facial plastic surgery journal clubs. Fellows also have the opportunity to present at Cedars-Sinai's *Multi-specialty Aesthetic & Reconstructive Surgery Symposium*, a national collaborative plastic surgery meeting. Clinical teaching opportunities are also available to surgical residents in the course of routine clinical and surgical care at Cedars-Sinai.

CASE LOAD:

Approximately 500 operative procedures annually.

CALL RESPONSIBILITIES:

- Private patients of both directors through entire fellowship (mostly phone calls) – constant
- Small group of private office (phone call only) – 1 out of 7 weeks
- Cedars-Sinai ENT Call (ER and consults) – 1-2 weekends every quarter

BENEFITS:

- *Health: none
- *Stipend: \$40,000
- *Malpractice: full coverage
- *Tail Coverage: full coverage
- *Other: 1) fully-sponsored travel, accommodation and fees for one facial plastics related meeting of fellow's choosing, 2) cell phone provided for patient contact

ADDITIONAL INFORMATION:

Fellows will practice as an associate of both Drs. Paul Nassif and Babak Azizzadeh, who have separate private practices in Beverly Hills. Emphasis is placed on one-to-one teaching with graduated clinical and surgical responsibilities, with a goal of performing cases without assistance by the end of the year. Exposure to robust non-surgical and non-invasive treatments is a large component of the fellowship and includes: both cannula and needle placement of injectable fillers; non-surgical rhinoplasty; cosmetic, functional and facial reanimation neurotoxin application; energy-based treatments (e.g. Ulthera); micro-needling; and PRP injection. Fellows also have significant, scheduled exposure to a list of volunteer faculty with a diverse range facial plastics-related skills.

Facial plastic surgery: Drs. Donal Yoo, Grace Lee Peng and Jonathan Cabin

Oculoplastic surgery: Drs. Guy Massry and Raymond Douglas

Dermatology: Drs. Rebecca Fitzgerald (cosmetic) and Ronald L. Moy (surgical /MOHs)

Head and neck surgery: Dr. Babak Larian

Opportunities to visit other specialists are available and encouraged, with a contact list provided. Depending on scheduling, fellows may have an opportunity to travel to South America for a craniofacial humanitarian trip with exposure to cleft and microtia surgeries.

Updated 6/11/19

Stephen W. Perkins, MD
Perkins Van Natta Center for Cosmetic Surgery and Medical Skincare
170 West 106th Street
Indianapolis, Indiana 46290-1004
(317) 575-0330
(317) 571-8667 (FAX)
sperkski@gmail.com
www.meridianplastic.com

UNIVERSITY AFFILIATION:

Department of Otolaryngology-Head and Neck Surgery, Indiana University School of Medicine, Indianapolis, Indiana

LICENSING REQUIREMENT:

Indiana Medical License, Indiana Controlled Substance Registration Certificate, Federal DEA, ACLS Certification. In addition, Fellow must have full active privileges at St. Vincent Hospitals and IU Hospitals, VA Hospital in Otolaryngology-Head and Neck Surgery Section.

APPOINTMENT LEVEL:

Clinical Instructor, Department of Otolaryngology-Head and Neck Surgery, Indiana University School of Medicine, Indianapolis, Indiana

OPERATING PRIVILEGES:

Operating privileges are available at Meridian Plastic Surgery Center. This center is Indiana State Board licensed, Medicare certified, AAAHC accredited ambulatory surgery center. It was opened in the fall of 1990 and houses Dr. Perkins' practice as well as the surgery center. Full operating privileges are required at St. Vincent Hospitals and Indiana University Health Hospitals.

OPERATIVE EXPERIENCE:

The fellow's "hands on" experience will be obtained from his/her own surgical case load at the Surgery Center, as well as those generated from the Facial Plastic Surgery trauma call schedule at St. Vincent Hospitals.

RESEARCH:

As outlined by AAFPRS Foundation Fellowship Program curriculum. Clinical research only.

TEACHING RESPONSIBILITIES:

This Clinical Instructor position requires the fellow to present at least twice during the year at the Facial Plastic Surgery lectures for the Department of Otolaryngology – Head and Neck Surgery at Indiana University School of Medicine and surgical staffing of the residents, from time to time.

CASE LOAD:

Dr. Perkins' practice is 95% cosmetic consisting of mainly rhinoplasty, facelift, blepharoplasty, forehead lifting, and laser resurfacing. Dr. Perkins alone performs over 800 surgical procedures each year involving all aspects of facial plastic surgery.

This includes chemical peel, dermabrasion, otoplasty, scar revision, chin and cheek augmentation and full perioral lip enhancement.

The carbon dioxide and the Sciton laser are extensively employed for facial skin resurfacing as well as for vascular and pigmented lesions. Hands on case experience taking care of skin cancers and local flap repair of Mohs defects is also a part of the fellow's experience. Additionally four plastic surgeons operate regularly at the Meridian Plastic Surgery Center. The fellow acts in the capacity of an associate running a mini-private practice doing insurance cases, injections of fillers and Botox®, and his/her own cosmetic surgery patients.

CALL RESPONSIBILITIES:

The fellow's responsibilities to Dr. Perkins' patients involve all preoperative preparation and work-up of each surgical patient and co-involvement in all postoperative and follow-up care.

The fellow is an integral part of the day-to-day functioning of the office. Learning how to run an efficient and successful facial plastic surgery practice is a very strong and important part of this private practice fellowship.

BENEFITS:

- *Health: Insurance
- *Stipend: \$2,000 a month plus trauma call, which is an opportunity to earn additional income taking soft tissue facial trauma call at St. Vincent Hospitals. Injectables, (filler and neurotoxin injections) have an additional compensation formula added to the fellow stipend.
- *Malpractice: Coverage provided at a first year post residency otolaryngologist level for independent operating room coverage.
- *Tail Coverage: Yes
- *Other:

ADDITIONAL INFORMATION:

If applicants require additional information, please contact the fellowship director by phone, e-mail, sperkski@gmail.com or website, www.meridianplastic.com. Previous fellows are available to discuss the experience in our fellowship.

Updated 9/18/17

Vito C. Quatela, MD
973 East Avenue
Rochester, New York 14607
(585) 244-1000
(585) 271-4786 (FAX)

UNIVERSITY AFFILIATION:

University of Rochester, Department of Otolaryngology, Clinical Professor of Surgery

LICENSING REQUIREMENT:

Must have completed a residency in otolaryngology/head and neck surgery or plastic surgery in the United States or Canada and obtain a New York State Medical License.

APPOINTMENT LEVEL:

AAFPRS clinical fellow with academic appointment in the Department of Surgery, Division of Otolaryngology at University of Rochester

OPERATING PRIVILEGES:

The fellow will be allowed operating privilege at both the Lindsay House Surgery Center and the University of Rochester with staff supervision. First assisting in surgery, primary surgeon for cases on call, and primary surgeon for cases generated in facial plastic clinic. In addition, the fellow will have attending privileges at the following hospitals with which Vito C. Quatela, MD is affiliated with in the Rochester area: Strong Memorial Hospital, Highland Hospital, Unity-Park Ridge Health Care System.

OPERATIVE EXPERIENCE:

Advanced training and broad exposure in aesthetic and reconstructive surgery to include training in: rhinoplasty, otoplasty, septorhinoplasty, blepharoplasty, chin & cheek augmentation, lip augmentation, forehead (including trichophytic, coronal, and endobrow), facelift, mid facelift, liposuction, facial chemical peels, dermabrasion, laser resurfacing and surgery, scar revisions, all types of facial trauma repair, repair of congenital facial deformities (including microtia reconstruction), post excision repair of all bony and soft tissues of the head and neck, tissue expansion, and MOH's defect repair with local and regional flaps, and hair transplant/restoration.

RESEARCH:

Fellow must perform some clinical or basic science research as required by all AAFPRS fellowship programs. An emphasis is place on original and on-going research projects, which promote publication. Research facilities and resources support is available.

TEACHING RESPONSIBILITIES:

The fellow will be directly involved in resident teaching both clinically and didactically at the University of Rochester and at the Lindsay House. He or she will supervise and assist residents, as well as, prepare and present formal didactic lectures to medical students and residents. Participation in teaching conferences is also required. Fellow will contribute time to occasional departmental grand-rounds.

CASE LOAD:

The fellow is an integral part of the medical staff. A typical week entails three (3) days of surgery and two- (2) days of patient office visits and consults at the Lindsay House.

CALL RESPONSIBILITIES:

First call for Dr. Quatela and attending call one week out of three (3) weeks.

BENEFITS:

- *Health: Full coverage, both medical and dental.
- *Stipend: \$48,000 per year.
- *Malpractice: Minimum of \$3,000,000 each claim with excess above that.
- *Tail Coverage: No "nose" coverage is provided. No tail – occurrence based.
- *Other:

ADDITIONAL INFORMATION:

Dr. Quatela's fellowship offers a unique opportunity for the fellow to participate in three microtia medical missions with the HUGS Foundation in Quito, Ecuador, Antigua, Guatemala and Hanoi, Vietnam. Each mission typically serves between 50-60 patients. We are hoping to add a fourth mission to Peru in **2019**.

Dr. Quatela's practice is housed in the Lindsay House, a free standing, restored mansion that is AAAHC certified. The Lindsay House is fully equipped with two state-of-the-art operating rooms dedicated to facial plastic surgery. In addition, within the University of Rochester there is an in-office operating facility dedicated to facial plastic procedures.

Rochester is the world's imaging center and home to **University of Rochester, Wegmans, Eastman Kodak, Xerox, and Bausch and Lomb** corporations. It is a unique cultural community that embraces many forms of entertainment to include: theatres, music programs, museums, golf courses, ski resorts, waterways, wineries, festivals, and recreational activities to include activities featured on the Erie Canal and its pathway/trail.

UNIVERSITY AFFILIATION:

Vanderbilt University Medical Center

LICENSING REQUIREMENT:

- Completion of residency in Otolaryngology-HNS or plastic surgery in the United States
- TN Medical License, unrestricted
 - Canadian applicants: at least one year of residency training in US required
- Federal DEA#, and ACLS certification required
- Full privileges at Williamson County Medical Center and Clymer Aesthetic Surgery Center *Faculty position (1/8) at Nashville VAMC

APPOINTMENT LEVEL:

Clinical Instructor, Vanderbilt School of Medicine, Nashville, TN with admitting/billing privileges

OPERATING PRIVILEGES:

Vanderbilt University Medical Center; including Main Campus and satellite facilities
Private Practice Ambulatory Surgery Center; 2 OR days a month at the VA

OPERATIVE EXPERIENCE:

Advanced training and broad exposure in aesthetic and reconstructive surgery: rhinoplasty, otoplasty, septorhinoplasty, blepharoplasty, chin & cheek augmentation, lip augmentation, forehead rejuvenation, liposuction, facial chemical peels, dermabrasion, laser resurfacing and surgery, scar revisions, all types of facial trauma repair, repair of congenital facial deformities (including microtia reconstruction) , and Moh's defect repair with local and regional flaps.

RESEARCH:

A scholarly paper project culminating in a formal manuscript (suitable for publication) is required. Clinical research projects in management of facial synkinesis and functional rhinoplasty available. Established basic research ongoing in bone tissue engineering and facial paralysis. Limited funding is available for small research projects.

TEACHING RESPONSIBILITIES:

The fellow is a clinical instructor in the Department of Otolaryngology-HNS at Vanderbilt Medical Center. They are expected to participate in educational conferences, which include departmental grand rounds, M&M, journal club, and bimonthly specific FPRS-related didactic conference. They will be responsible for supervising residents during reconstructive cases. The fellow will be assigned occasional lectures to give at resident teaching conferences, and asked to present at one departmental grand rounds.

CASE LOAD:

Full range of facial plastic and reconstructive procedures.

Cosmetic: all aging face procedures (including endoscopic brow, implants, laser resurfacing, facial liposuction, dermabrasion, chemical peels, injectables); primary and revision rhinoplasty, otoplasty

Reconstruction: all types of facial trauma repair (mentorship with OMFS faculty if interested); congenital facial deformities (including microtia); vascular malformations; full-spectrum of Mohs reconstructions; surgical treatment of facial paralysis (including nerve grafting techniques, temporalis transfers).

During the fellowship year, the fellow should expect to assist with, and/or perform, at least 500 facial plastic and reconstructive surgical cases balanced approximately 60% reconstruction 40% cosmetic.

CALL RESPONSIBILITIES:

Attending call for General OHNS at University – 7 weekends/year. The fellow will assist Drs. Ries and Stephan with facial trauma coverage. The fellow is available for facial plastic coverage for Dr. Clymer's private practice when out of town.

BENEFITS:

- *Health: Basic health insurance (including spouse and dependents)
- *Stipend: Approximately \$62,200/year
- *Malpractice: Provided for fellowship-related patient care only.
- *Tail Coverage: Coverage is provided on an "occurrence" basis obviating the need for "tail" coverage.
- *Other: Two weeks paid vacation; relocation/moving stipend

ADDITIONAL INFORMATION:

The Vanderbilt fellowship offers a balanced and in-depth experience in facial cosmetic and reconstructive surgery in both the academic and private practice setting. Mentorship will focus on development of surgical skills, clinical decision making, leadership in resident education, as well as the management of a facial plastics practice. The combination of a mid-size city patient population and a large referral area provide a great variety of surgical cases. The fellow is encouraged to participate with a faculty member on a one week overseas humanitarian trip focused on microtia reconstruction. As a University attending with autonomous responsibilities, the fellow should obtain significant "hands on" experience in nearly all facets of facial plastic and reconstructive surgery. Preference is given to applicants who demonstrate a sincere interest in a full-time academic career, and experience in maxillofacial trauma care is preferred. Our fellow spends one day a week at the Nashville VA Medical center, alternating clinic and surgery days seeing only patients needing facial plastic surgery. This provides further opportunity for hands-on experience and teaching opportunity.

9/22/15

Daniel E. Rousso, MD, FACS
Rousso Facial Plastic Surgery Clinic
2700 Highway 280
Suite 300
Birmingham, Alabama 35223
(205) 802-7775
(205) 802-7719 (FAX)
www.drrousso.com

UNIVERSITY AFFILIATION:

Assistant Professor of Surgery
University of Alabama at Birmingham
Division of Otolaryngology-Head & Neck Surgery,

LICENSING REQUIREMENT:

Alabama State Medical License

APPOINTMENT LEVEL:

Fellow

OPERATING PRIVILEGES:

The fellow will have operating privileges at the Rousso Facial Plastic Surgery Clinic; UAB Highlands, Brookwood Medical Center, and St. Vincent's Hospital, AND Grandview Medical Center, all located in Birmingham.

OPERATIVE EXPERIENCE:

The Rousso Facial Plastic Surgery Clinic & Aesthetic Medical Spa is Accredited by the Accreditation Association for Ambulatory Health Care (AAAHC) with two state of the art operating suites. Dr. Rousso limits his practice exclusively to facial plastic surgery that is cosmetic in nature (90%). Cosmetic procedures include Rhytidectomy, Blepharoplasty, Rhinoplasty, Laser skin resurfacing, Dermabrasion, Chemical peeling, Hair replacement, (including hair transplants, scalp reduction, scalp flaps, and hairline lowering), Otoplasty, BOTOX cosmetic, and a host of dermal fillers, and reconstructive procedures encompassing complex flap procedures for Mohs' cases. Cosmetic cases are performed in our Clinic two days per week with hospital cases performed 1 day per week. New patient consultations and post-op patients are seen on Monday, Thursday morning and Friday morning each week. The practice is busy with over 700+ cases per year. Shortly after arrival the fellow will be able to inject Botox and dermal fillers, and take care of Mohs' surgery cases. The fellow is expected to observe Dr. Rousso in surgery and in the care of patients', pre and post-op. The Fellow will have the opportunity to assist other physicians in the community. During the latter part of the fellowship, the Fellow has the opportunity to operate as primary surgeon with cosmetic cases provided through special arrangements (for those patients with limited budgets).

RESEARCH:

Research is encouraged and supported. One clinical paper is required by the AAFPRS.

TEACHING RESPONSIBILITIES:

Dr. Rousso gives lectures to the UAB Residents on a rotating schedule and the Fellow is expected to be involved.

CASE LOAD:

Approximately 700+ cases as first assistant, and 30+ cases as primary surgeon. Operate 3 days a week, 2 in the Clinic and 1 day at the hospital..

CALL RESPONSIBILITIES:

The fellow is expected to take primary call. There is no emergency room call.

BENEFITS:

- *Health: Provided for the fellow and his/her family.
- *Stipend: \$36,000 per year.
- *Malpractice: Provided
- *Tail Coverage: Provided
- *Other: Two weeks vacation per year
Paid attendance at the AAFPRS Annual Meeting and one additional meeting

ADDITIONAL INFORMATION:

Dr. Rousso is also a Fellowship Director and past President of the International Society of Hair Restoration Surgery (ISHRS). The fellow will be exposed to numerous hair restoration procedures and techniques during his fellowship year.

Birmingham is a city gifted with an outstanding medical community. The fellow will have the opportunity to spend time with other facial plastic surgeons, plastic surgeons, oculoplastic surgeons, Mohs' surgeons and oral/maxillofacial surgeons in the community. The Fellow has the opportunity to interact with multiple surgeons with different practices. The ability to interact with a diverse group of specialists focusing on aesthetic medicine and surgery provides a unique setting in which one can maximize his/her experience in aesthetic and reconstructive facial plastic surgery.

J. Regan Thomas, MD

Contact E-Mail: jreganthomas@gmail.com

UNIVERSITY AFFILIATION:

Northwestern University Feinberg School of Medicine, Department of Otolaryngology/HNS

LICENSING REQUIREMENT:

Valid Illinois Medical License, Controlled Substances License, DEA certificate

APPOINTMENT LEVEL:

Clinical Instructor, Northwestern University Department of Otolaryngology/HNS

OPERATING PRIVILEGES:

Attending privileges at Northwestern Memorial Hospital

OPERATIVE EXPERIENCE:

The fellow will have a broad exposure to both functional (50% and cosmetic (50%) facial Plastics. Specifically, operative training includes: repair of Mohs defects with local and regional flaps, tissue expansion, autografting, alloplastic implantation, otoplasty, maxillofacial trauma, dermabrasion, laser resurfacing, liposuction, lip and malar augmentation, mentoplasty, rhytidectomy, oculoplastics, brow lift, and primary and revision rhinoplasty. The fellow will have a steady increase in autonomy throughout the year and will have the opportunity to book his/her own cases from patients seen in the fellow's clinic.

RESEARCH:

A scholarly project culminating in a formal manuscript that is suitable for publication and/or presentation at a national meeting is required as per AAFPRS guidelines. The project may be within our department, or the fellow may collaborate with another department at Northwestern University if desired. There is access to a cadaver laboratory for research.

TEACHING RESPONSIBILITIES:

The fellow is expected to play an active role in resident education. There are broad reviews and journal clubs tailored to facial plastics spaced throughout the year that the fellow will help to coordinate. Additionally, teaching will be done in the clinic and operating room.

CASE LOAD:

Each week, the fellow will spend approximately two days with the director, Dr. Sidle, and two days with the co-director, Dr. Thomas. The fellow will have approximately one full day each week comprised of his/her own clinic patients and operating room cases. The experience is designed to optimize continuity of care, with the fellow participating in preoperative assessment, surgery, and postoperative care. The fellow will assist with Dr. Sidle and Dr. Thomas' cases with increasing autonomy throughout the course of the year as deemed appropriate. The fellow will be primary surgeon on any cases booked for patients seen in his/her clinic. In total, the fellow will assist and/or perform a total of 300-400 surgical procedures over the course of the year.

CALL RESPONSIBILITIES:

The fellow will participate in the attending call pool. Call is variable but is generally one week every six to eight weeks, with trauma cases preferentially distributed to the fellow. Additionally, the fellow is expected to be available for any emergencies related to the director and co-director's patients.

BENEFITS:

- *Health: Provide
- *Stipend: \$72,280, commensurate with PGY6 salary
- *Malpractice: Coverage through Northwestern Memorial
- *Tail Coverage: Coverage through Northwestern Memorial
- *Other: Two weeks paid vacation, 4-6 paid holidays, and one conference per year, partially funded per Department policy if the fellow is presenting his/her project. Lab coats and assistance with photography and software for morphing images will be provided.

ADDITIONAL INFORMATION:

Oakley Smith, MD
2349 Queen St East

(416) 465.5795
(416) 465.5701(FAX)
drsmith@droakleysmithrhinoplasty.com

UNIVERSITY AFFILIATION:

University of Toronto

LICENSING REQUIREMENT:

Educational license from the College of Physicians and Surgeons of Ontario

APPOINTMENT LEVEL:

Fellow of the Department of Otolaryngology-Head and Neck Surgery, University of Toronto

OPERATING PRIVILEGES:

Michael Garron Hospital (MGH) and the Toronto Cosmetic Surgery Institute (TCSI)

OPERATIVE EXPERIENCE:

Assisting with all Dr. Oakley Smith's private cosmetic cases; assisting with increasing responsibility as deemed appropriate up to primary surgeon with reconstructive nasal surgery **and MGH**; responsible for initial post-operative care of all cases

RESEARCH:

The Fellow is expected to carry out clinically based studies on various aspects of rhinoplasty surgery. The Fellow will present the result of this research at the Department's annual Percy Ireland Research Day and subsequently be expected to submit the paper for publication. There are several projects available within the Division of Facial Plastic Surgery.

TEACHING RESPONSIBILITIES:

The Fellow will be partially responsible for teaching the residents during that part of the University Department's Core Curriculum assigned to Facial Plastic Surgery. There will be informal opportunities to interact with the final year resident assigned to **MGH**, along with intermittent but frequent medical students and family practice residents on elective or selective rotations.

CASE LOAD:

The majority of cases are aesthetic rhinoplasty (**170**), there is a significant minority of both reconstructive rhinoplasty (40) and septoplasty a majority of which are complete and/or revision (70). There is the opportunity to observe facial rejuvenation surgery (of all types) and major head and neck oncologic reconstructive surgery (majority are free tissue transfer) with the participating faculty.

CALL RESPONSIBILITIES:

The fellow is responsible for first call with Dr Oakley Smith's private patients at all times except when away on vacation. He/she is also responsible for first call at **MGH** with Dr Oakley Smith (one day a week and one weekend in eight).

BENEFITS:

BENEFITS:

- *Health: Available through the University of Toronto International Students Health program
- *Stipend: **\$30,000** in Canadian funds
- *Malpractice: With the Canadian Medical Protective Association (CMPA)
- *Tail Coverage: Included in the CMPA malpractice
- *Other: There are opportunities for coverage of the Fellow's family and dependents as needed. The Fellow will have three (3) weeks paid vacation a year. These weeks are to coincide with the Fellowship Director's schedule as much as possible. Operative scrubs will be provided for the Fellow. The Fellow will be provided with lunch during the week.

Columbus, Ohio 43235
(614) 436-8888
(614) 436-8847 (FAX)

UNIVERSITY AFFILIATION:

The Ohio State University Medical Center

LICENSING REQUIREMENT:

Ohio State Medical License and a valid DEA certificate

APPOINTMENT LEVEL:

Clinical Assistant Professor in the Department of Otolaryngology-Head and Neck Surgery

OPERATING PRIVILEGES:

Privileges at University Hospital, The James Cancer Hospital, Eye and Ear Institute, **Mount Carmel Health System**, and **White Fences Surgical Suite**

OPERATIVE EXPERIENCE:

The fellow will receive advanced training and broad exposure to the full breadth of cosmetic and reconstructive surgery. This includes rhinoplasty, aging face, laser resurfacing, **nonablative laser and light technology**, chemical peels, **nonsurgical**, all types of facial trauma repairs, functional nasal airway, and Mohs reconstruction.

RESEARCH:

Adequate time is available for basic and/or clinical research in both the private practice and academic settings.

TEACHING RESPONSIBILITIES:

While at the University, teaching involvement will include didactic session for medical students and residents as well as staffing facial plastic and reconstructive surgery clinics and surgery. The fellow will be involved in teaching a yearly facial plastic surgery dissection course. Fellows may elect to teach head and neck cadaver dissections to medical students.

CASE LOAD:

Approximately 700-800 major cases about 1/4 as primary surgeon. Level of participation will be based on case complexity and fellow's technical abilities. Operate about 2.5 days per week, clinic 2.5 days per week.

CALL RESPONSIBILITIES:

The fellow will be responsible for covering call for Smith Facial Plastics for the duration of the year. The fellow will also take community facial trauma call within the Mount Carmel Health System. No general ENT call or Ohio State University is incorporated into the fellowship.

BENEFITS:

- *Health: **\$400 per month (may be applied to practice options)**
Fellows are eligible for enrollment in one of several health insurance plans including single and dependent coverage. Vision and dental plans are also available.
- *Stipend: **\$3,000 per month before production bonus**
Salary will be approximately \$36,000/year before production bonus.
- *Malpractice: **fully covered**
- *Tail Coverage: **fully covered**
- *Other: 2 weeks vacation, select time off for job interviews, expected to attend annual AAFPRS meetings, access to photography suite and imaging software, and 2 lab coats **and scrubs**

ADDITIONAL INFORMATION:

The overall design of this fellowship is to provide the opportunity for advanced training in facial plastic and reconstructive surgery. It will provide the fellow with the skill set necessary for academic or private practice career opportunities.

The fellow will spend the majority of time gaining surgical experience with Drs. Smith, **Stephen Nogan, and Leslie Kim. Additionally, fellows interested in gaining expertise in hair transplant techniques are offered opportunities to observe with Dr. John Frank. Approximately 3-4 days per week will be spent in surgical cases and clinic with Dr. Smith and one to two days per week with Dr. Kim and Dr. Nogan.**

The experience with Dr. **Smith is approximately 80% cosmetic and 20% reconstructive.** Operative **exposure includes in-depth training in facial cosmetic surgery (facelifts, blepharoplasty, browlift, primary and secondary cosmetic rhinoplasty, facial augmentation, etc.) as well as minimally invasive techniques and office based procedures (injectables and laser treatments).**

Time with Dr. Nogan and Dr. Kim is spent predominantly at the University Hospital and Eye and Ear Institute (OR and office-based). **Exposure includes** Mohs defect repair with local and regional flaps, cartilage/skin/bone/fat autografting, maxillofacial trauma, and functional nasal airway surgery. **Dr. Kim also specialized in facial reanimation/rehabilitation.** Operative training also includes rhinoplasty, brow lifts, blepharoplasty, lipotransfer, laser resurfacing and chemical peels.

The fellow can anticipate an opportunity to spend time with affiliated Oculoplastic Surgeons and Dermatologic/Mohs Surgeons.

All training locations are in Columbus and the immediate surrounding areas and are within 20 minutes of each other.

An agreement not to practice in the greater Columbus area for a specified time period must be signed at the time of the fellowship acceptance.

Contact E-mail: info@DrSpiegel.com

UNIVERSITY AFFILIATION:

Boston University School of Medicine

LICENSING REQUIREMENT:

Full [and unrestricted license to practice medicine in Massachusetts](#)

APPOINTMENT LEVEL:

[Instructor](#)

OPERATING PRIVILEGES:

[Full; Newton Surgery \(ambulatory surgery center\)](#)

OPERATIVE EXPERIENCE:

[Facial Plastic Surgery, Craniofacial Surgery, Facial Feminization Surgery. Approximately 1000-1200 major procedures.](#)

RESEARCH:

[Many opportunities are available. The fellow typically writes 1-2 papers with Dr. Spiegel in addition to his/her own fellowship research project.](#)

TEACHING RESPONSIBILITIES:

[Works as a junior attending with residents of all levels.](#)

CASE LOAD:

[1000-1200 major cases; experience with hair grafting and FUE techniques is also part of the fellowship.](#)

CALL RESPONSIBILITIES:

[Full time coverage for the practice of Dr. Spiegel \(few calls\). Attending call for the Department of Otolaryngology 1 week every 6-10 weeks. Moonlighting opportunity available.](#)

The fellow takes attending call for the Department of Otolaryngology. Typically one week every seven to nine weeks. Additionally, the fellow covers call and issues related to Dr. Spiegel's patients as they arise.

BENEFITS:

- * Health: Yes, Faculty health care and dental benefits from BMC
- * Stipend: Yes, \$60,000 = \$30,000 BMC & \$30,000 TSC
- * Malpractice: Yes, provided by BMC
- * Tail Coverage: Yes, provided by BMC
- * Other:

ADDITIONAL INFORMATION:

This fellowship is intended for those who are interested in pursuing an academic or private facial plastic surgery career. Emphasis is placed on scholarly activities in addition to clinical experience, and significant time is spent discussing career development. The fellow will receive training in the management of a busy aesthetic surgery practice, and learn techniques for success in both academic and private practice environments. This program does accept International Medical Graduates for training but only if able to obtain a full unrestricted license in the state of Massachusetts.

Sherard Tatum, MD
Professor and Chair
Department of Otolaryngology
S.U.N.Y. Upstate Medical University
750 East Adams Street
Syracuse, New York 13210
(315) 464-4636
(316) 464-7282 (FAX)
Contact E-mail: tatums@upstate.edu

Amar Suryadevara, MD, Co-Director
Associate Professor/Residency Program Director

(315) 464-7281
(315) 464-7282 (FAX)
Contact E-mail: suryadevara@upstate.edu

UNIVERSITY AFFILIATION:

This fellowship is offered through the Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology, State University of New York Upstate Medical University.

LICENSING REQUIREMENT:

Unrestricted New York State License, DEA, and ACLS and PALS training are required.

APPOINTMENT LEVEL:

The fellow will receive an academic appointment at the Instructor level.

OPERATING PRIVILEGES:

The fellow will have privileges to operate independently and under faculty supervision at University Hospital and the Syracuse Veterans Administration Hospital.

OPERATIVE EXPERIENCE:

The fellow will operate with Dr. Tatum to obtain an extensive craniomaxillofacial surgery experience. **This includes** congenital craniofacial and cleft lip and palate surgery, orthognathic surgery, facial trauma, skull base surgery, and post-ablative reconstructive surgery including **facial reanimation. The fellow will participate in cosmetic facial surgery, rhinoplasty and revision rhinoplasty surgery, and Mohs reconstruction with Dr. Suryadevara. Finally with Dr. Ryan, the fellow will be exposed to microvascular reconstruction.** A microsurgical laboratory is also available.

RESEARCH:

Extensive laboratory facilities are available. A basic science or clinical project leading to a manuscript suitable for publication is a requirement for finishing the fellowship. Funding is available.

TEACHING RESPONSIBILITIES:

The fellow will supervise residents in cases of an appropriate level, staff facial plastic and reconstructive surgery clinics at University Hospital and the Syracuse Veterans Administration Hospital and participate actively in facial plastic and reconstructive surgery conferences. There is also participation in Grand Rounds and medical student teaching.

CASE LOAD:

Typically, the fellow will participate in **up to 500** cases a year. The level of participation depends on the complexity of the case and the fellow's abilities. A natural progression from observation and assisting to primary surgery is anticipated. Ambulatory patients are seen in various clinics averaging 2 half days per week. **Participation in cleft clinic three times per month** working closely with speech pathology and dental services.

CALL RESPONSIBILITIES:

The fellow will be placed in the rotating home call schedule primarily for trauma and inpatients such as microsurgical cases. The fellow also covers in house call during the resident retreat and annual residents' in-service exam.

BENEFITS:

- *Health: Provided for fellow, affordable family coverage is available.
Dental is provided for fellow; affordable family coverage is available.
- *Stipend: \$18,000 is provided with possibility of enhancement from on-call and Veterans Administration Hospital activities throughout the year. Recent fellows have earned approximately \$50,000.
- *Malpractice: Provided.
- *Tail Coverage: Provided.
- *Other: Office, computer, lab coats, library, videos, support staff, pager and funding for approved meetings,

ADDITIONAL INFORMATION:

This fellowship is based in a busy University Hospital Otolaryngology Department. In addition to the directors' cases, the fellow has the option of participating in any cases cared for by other departmental members. Community affiliates are available to the fellow, which include a facial plastic surgeon, several plastic surgeons, and an oculoplastic surgeon. The Central New York Center for Cleft and Craniofacial Disorders headed by Dr. Tatum and the Center for VCES is contained within the Department of Otolaryngology. The Department of Otolaryngology performs the vast majority of plastic and reconstructive surgery of the face, head and neck performed at this medical center. This fellowship is intended to prepare individuals for a career in academic facial plastic and reconstructive surgery. Information can also be obtained from the University's website: www.upstate.edu.

This program does accept International Medical Graduates for training if they can qualify for an unrestricted medical license in the State of New York, speak English well, and meet requirements to participate in the fellowship match.

Updated 1/4/19

Dean M. Toriumi, MD, Director
Div. of FP & R Surgery
1855 West Taylor Street, M/C 648
Chicago, Illinois 60612
(312) 996-8897
(312) 996-1282 (FAX)

UNIVERSITY AFFILIATION:

University of Illinois at Chicago

LICENSING REQUIREMENT:

Illinois license required

APPOINTMENT LEVEL:

OPERATING PRIVILEGES:

Veterans Administration Hospital

OPERATIVE EXPERIENCE:

These two fellowships will be based out of the Department of Otolaryngology – Head and Neck Surgery at the University of Illinois at Chicago. The primary responsibility of **Dr. Toriumi's fellow** will be to cover Dr. Toriumi's surgery and clinic hours. Both fellows will have the opportunity to spend time with the other director and Dr. Steve Dayan (specializes in lasers and injectables), Dr. Gary Burget (specializes in MOH's reconstruction), and Dr. Ray Konior (specializes in hair restoration and aging face surgery). Dr. Toriumi's fellow will spend a majority of time between the 900 N. Michigan Surgery Center. Each fellow will spend a half day per week seeing patients in their own facial plastic clinic at the University of Illinois at Chicago. The fellows will also staff resident cases at the Eye and Ear Infirmary at UIC or the Veterans Administration Hospital.

RESEARCH:

The fellow's research experience will involve their participation in Dr. Toriumi's clinical research and biomaterials testing laboratories. The fellows will have the opportunity to learn new skills in bone biology, wound healing, and biomaterials testing. Funding for the fellow's research projects will be provided from several stable-funding sources. Other opportunities for research projects are available through the Otolaryngology-Head and Neck Surgery Department.

TEACHING RESPONSIBILITIES:

The fellows will occasionally participate in resident clinic activities at the University of Illinois at Chicago or the Veterans Administration Hospital.

CASE LOAD:

Dr. Toriumi's fellows will have an opportunity to schedule their own cases through their facial plastic clinic. The cases will be composed of primarily aesthetic and functional rhinoplasty, facial reconstruction and scar revision. An occasional aging face case may be scheduled as well. The fellows can also schedule cases with the residents at UIC hospital or the VA.

CALL RESPONSIBILITIES:

The fellows will be responsible for taking one of the night call slots with the other attendings in the Department of Otolaryngology - Head and Neck Surgery at the University of Illinois at Chicago. *The fellows are on call no more than once every six weeks. They also will staff resident cases in the UIC operating room.*

BENEFITS:

*Health:

*Stipend:

*Malpractice:

*Tail Coverage:

*Other:

*As the University of Illinois deems appropriate
for level of training.*

ADDITIONAL INFORMATION:

The fellows will have access to advanced photography and medical services. This experience will allow them to learn about photographic documentation, computer imaging and collect lectures and videotapes for their own libraries. The fellows will have access to IT personnel who will help them with computer hardware and software issues.

This fellowship will provide a wide range of clinical activities in facial plastic and reconstructive surgery with strong research experience. This combination of clinical exposure and research will be particularly attractive to those fellows interested in pursuing a career in academic medicine.

The facial plastic surgery fellows will each spend time with Dr. Toriumi whose practice covers a wide range of procedures in facial plastic and reconstructive surgery. There is an emphasis on aesthetic and functional rhinoplasty. However, there is excellent exposure to other areas of aesthetic surgery such as aging face surgery, laser surgery, otoplasty, etc. Dr. Toriumi also performs many different forms of reconstructive surgery.

There are several other surgeons that the fellows have an opportunity to spend time with. The other surgeons include Drs. Dayan (facial plastic surgery fellow with Dr. Perkins), Konior (facial plastic surgery fellow with Dr. Kridel), Burget (plastic surgeon), Putterman (occuloplastic surgeon), and McKinney (plastic surgeon). All of these participating surgeons practice facial plastic and reconstructive surgery with different areas of interest.

Dr. Toriumi has an active research laboratory with projects in the area of clinical rhinoplasty outcomes, biomaterial research, wound healing, and tissue engineering. The fellows actively participate in Dr. Toriumi's research projects.

wangt@ohsu.edu

UNIVERSITY AFFILIATION:
Oregon Health Sciences University

LICENSING REQUIREMENT:
Oregon licensure required.

APPOINTMENT LEVEL:
Instructor, Department of Otolaryngology/Head and Neck Surgery

OPERATING PRIVILEGES:
The Fellow will be allowed operating privileges with staff coverage. There is a separate Fellow's clinic, and the fellow will assist in staff clinics. The fellow has a Facial Plastic Surgery clinic and operating day at the VA Hospital.

OPERATIVE EXPERIENCE:
Full range of facial plastic and reconstructive procedures including primary and revision rhinoplasty; all aging face procedures (**brow lift, blepharoplasty, face/neck lift**) including liposuction, dermabrasion, and chemical peels, **laser resurfacing, and broad band light therapy**; facial **soft tissue and bony trauma repair; repair of congenital facial deformities including cleft lip and palate (primary, intermediate, and definitive), microtia, and macrostomia; local and regional flap repair of skin cancer defects; facial reanimation including gracilis free tissue transfer, nerve transfers, temporalis tendon transfer, and all other dynamic and static procedures; facial feminization. Opportunity available for microvascular experience, tailored to fellow's personal interests.**

RESEARCH:
Each fellow must perform clinical or basic science research as required by all AAFPRS Foundation fellowship programs. Animal research facilities and limited funding is available.

TEACHING RESPONSIBILITIES:
The fellow will participate in departmental grand rounds, resident didactic lectures, surgical staffing and medical student teaching.

CASE LOAD:
The fellow will have 6 half days per week in the operating room, 2 half days in clinics and 1 half day in research.

CALL RESPONSIBILITIES:

The fellow is available for facial plastic and facial trauma coverage. **There are no general otolaryngology call responsibilities.**

BENEFITS:

- *Health: Medical insurance is provided.
- *Stipend: \$50,000/year
- *Malpractice: Fully covered under TORT reform in the state of Oregon
- *Tail Coverage:
- *Other:

ADDITIONAL INFORMATION:

This fellowship is intended for those planning a career in academic facial plastic surgery. The fellow is actively involved in teaching and supervising both residents and medical students in the clinic and the operating room. Teaching, writing, and research techniques are incorporated into the fellowship. The fellow will also be working with Dr. Michael Kim and Dr. Myriam Loyo in the Division of Facial Plastic and Reconstructive Surgery.

Portland, Oregon 97201
(503) 494-5678
(503) 494-4631 (FAX)

UNIVERSITY AFFILIATION:
Oregon Health Sciences University

LICENSING REQUIREMENT:
Oregon State License

APPOINTMENT LEVEL:
Junior Attending Level, Lecturer, School of Medicine

OPERATING PRIVILEGES:
Veterans Administration Medical Center
Oregon Health Sciences University
Fellow will have full clinical and operating procedure privileges for Otolaryngology procedures.

OPERATIVE EXPERIENCE:
The fellow will participate in all Microvascular and Reconstructive surgery cases performed on Head & Neck patients at OHSU. Surgical experience includes primary as well as secondary reconstructions. Facial nerve rehabilitation and secondary corrections are part of the fellowship. Fellows will be competent in all types of free tissue transfer by the end of the year. Graded responsibility is used with independence on a graduated scale. Reconstruction is performed for Otolaryngology, Oral, Maxillofacial, Neurosurgery and Orthopedics.

During the year experience in Cosmetic as well as MOHS reconstruction is available. Clinical experience is available for pre operative and post operative evaluation.

RESEARCH:
A fully equipped microvascular lab is available.
It is expected that the fellow will complete at least one laboratory basic science study and one clinical project. The fellow usually presents and attends the annual AAO/HNS, Western, and AHNS meetings. A number of prospective studies are always on-going and the fellow is expected to participate. A data base of over 1,000 flaps is also available for retrospective studies.

TEACHING RESPONSIBILITIES:

OHSU is a fully accredited residency program. Responsibilities for teaching include intra-operative, as well as clinical, to residents, medical students, and interns. The fellow functions as a junior faculty member and not as a super chief resident. A complete didactic program for residents is available with input from the fellow.

CASE LOAD:

Between 170-200 free flaps are performed each year. Approximately 20 facial nerve resections require rehabilitative procedures with secondary reconstruction. Multiple other facial plastic cosmetic procedures are performed, as well as multiple reconstructions.

CALL RESPONSIBILITIES:

The microvascular fellow takes call after an in-house junior resident and home call chief resident. There is no attending call. Trauma call is taken 3 weeks of the year as an attending.

BENEFITS:

- *Health: Benefits are fully covered and are the equivalent of those for faculty.
- *Stipend: \$50,000
- *Malpractice: Fully covered under TORT reform in the state of Oregon.
- *Tail Coverage:
- *Other:

ADDITIONAL INFORMATION:

This is a joint fellowship in microvascular reconstruction with facial plastic and reconstructive surgery. The majority of time and prime focus is on microvascular reconstruction. A busy head and neck oncologic service is available, which allows full integration of all aspects of rehabilitation to take place. Opportunities for exposure to a busy facial plastic and reconstructive surgery service are available.

Edwin F. Williams, III, MD
1072 Troy Schenectady Road
Latham, New York 12110
(518) 786-7000
(518) 786-1160 (FAX)

UNIVERSITY AFFILIATION:

None

LICENSING REQUIREMENT:

New York State

APPOINTMENT LEVEL:

Clinical Instructor

OPERATING PRIVILEGES:

New England Laser and Cosmetic Surgery Center (NELCSC); Albany Medical Center (AMC); St. Peter's Hospital (SPH); Albany Memorial Hospital (AMH)

OPERATIVE EXPERIENCE:

NELCSC: The fellow will assist in a full range of cosmetic and reconstructive surgery with Dr. Williams (see "Additional Information" for more detail).

AMC: The fellow will be available to staff trauma cases with residents as needed.

AMC/SPH: The fellow can schedule cases at these facilities as needed.

RESEARCH:

Clinical research (encompassing cosmetic, reconstructive, congenital vascular malformations) is available with Dr. Williams at his private clinic. The fellow has the opportunity to work with residents on clinical research.

TEACHING RESPONSIBILITIES:

The fellow will take part in teaching the AMC residents as they rotate on the service at NELCSC. He/she will also take part in a series of facial plastic surgery lectures and **anatomy lab** workshops **for the residents**.

CASE LOAD:

Dr. Williams performs 600-700 major cases annually (all cosmetic, **including aging face and rhinoplasty**). **The fellow will be working with Dr. Keimun Slaughter on a regular basis as he is an integral part of Dr. Williams' practice, doing hair restoration and transplant, as well as Mohs reconstructions and other insurance cases.** Most fellows complete the fellowship program with between 800-1,000 cases annually.

CALL RESPONSIBILITIES:

The fellow will assume Dr. Williams' call for his private practice. **He/She will also cover call at AMC one trauma weekend every other month. The fellow will have the opportunity to bill for any cases and/or consults performed during this call weekend.**

BENEFITS:

- *Health: 70% coverage single plan from the Medical practice-local PPO's and indemnity insurance
- *Stipend: \$24,000 per year plus a performance based compensation **from working off-hours in the medical spa.**
- *Malpractice: Coverage by the Practice and MLMIC.
- *Tail Coverage: Yes.
- *Other: **Housing; An apartment is provided to the fellow. The apartment is located minutes from Albany Medical Center, in a very safe area of the city.**

ADDITIONAL INFORMATION:

Dr. Williams' fellowship provides a well-balanced exposure to both the cosmetic and reconstructive aspects of facial plastic surgery. Dr. Williams has a busy practice and performs a wide variety of cosmetic procedures rhytidectomy (including deep plane facelift **and SMAS imbrication**), endoscopic brow and midface lifts, fat transfers, blepharoplasties, rhinoplasty, etc. He also employs all different resurfacing modalities **including** chemical peels, **CO2** laser resurfacing and dermabrasion. **Additionally the fellow will have the opportunity to learn some oculoplastic techniques, including ptosis repair and tarsal strip shortening for ectropion.**

Working with Dr. Slaughter, the fellow will also be exposed to all types of reconstructive surgery for facial cutaneous cancers, including both primary excision and repair/reconstruction of MOH's defects. He/she will have performed numerous forehead flaps and other local and pedicle flaps. **Dr. Slaughter is also actively involved in treating patients with vascular deformities, as such the fellow will have performed frequent pulse-dye laser treatments, steroid injections and excision/flap reconstructions for treatment of such deformities. Additionally Dr. Slaughter has a busy insurance practice where the fellow gains experience in functional procedures such as Septorhinoplasty, browlifts, and blepharoplasty.**

The Williams Center recently acquired Saratoga Hair Transplant Center, which was formerly owned and operated by Dr. Michael Beehner. Together, Dr. Beehner and Dr. Slaughter have a very dynamic hair restoration practice and the fellow will obtain ample understanding and proficiency in this area of facial plastic surgery.

The fellow will also work in the Rejuva Center two half-days weekly. This is a medical spa where the fellow learns how to perform non-surgical procedures such as chemical peels, microneedling, laser treatments, and injectables.

The business aspect of running a successful practice and medical spa is also emphasized during fellowship year. This includes areas of public relations, marketing, budgeting, and strategic planning. These are discussed with the fellow in great detail throughout the year with the focus on teaching the fellow how to run a successful practice in an academic or private practice setting.

Dr. Williams works primarily in a three-story, 25,000 square –foot office and fully-licensed surgery center, which he owns and operates. **His facility** is located 15 minutes north of Albany, New York.

Dr. Williams' fellowship offers a hands-on experience, which includes comprehensive exposure to all aspects of facial plastic surgery, including cosmetic, reconstructive **procedures**, and should prepare the fellow well for **his or her future endeavors.**

For administrative issues: MaryAnn Evans – maevans@uci.edu

UNIVERSITY AFFILIATION:

University of California, Irvine

LICENSING REQUIREMENT:

California License and DEA number required.

APPOINTMENT LEVEL:

Clinical Instructor, University of California Irvine, full time medical staff hospital appointment

OPERATING PRIVILEGES:

The fellow will have privileges at the Univ. of CA, Irvine Medical Center (MC), Kaiser Permanente MC of Irvine, and Facial Aesthetic Concepts (San Clemente).

OPERATIVE EXPERIENCE:

Dr. Wong is responsible for the overall fellowship experience which is centered around UC Irvine. His practice is focused on rhinoplasty surgery, but performs all aspects of facial plastic surgery as well. The Division of Facial Plastic Surgery at UC Irvine includes Dr. Wong, Roger Crumley, and Dr. Tjosa Tjoa (microvascular surgery). The fellow rotates weekly at the Beckman Laser Institute at UC Irvine with Dr. J. Stuart Nelson who is focused on the laser therapeutics in the skin. This is a combined clinic with Drs. Wong and Nelson. The focus is on management of the aging face, vascular malformations, pigmented lesions, and scars. This is a high volume and cutting edge laser experience with over 100 treatments per week. The fellow will participate in the Vascular Birthmarks and Malformations Clinic which is a regional referral program/resource for these disorders. About half the fellowship is extramural with: 1) Rhinoplasty/Mohs experience (with Drs. Ted Chen and Brian Kim – Facial Plastic Surgery, Kaiser Permanente, Irvine); 2) oculoplastics (Dr. Kenneth Kranz – oculoplastics, Kaiser Permanente, Irvine); and 3) aging face (Drs. Richard Gangnes and Jacob Boeckmann – Facial Aesthetic Concepts, offices in San Clement/Dana Point, Aliso, Viejo, and Rancho Santa Margarita). Dr. Gangnes and Boeckmann focus on surgery of the aging face exclusively with an emphasis on facelifting operations. This provides the fellow with an opportunity to participate in an aesthetic facial plastic surgery practice in a true private practice setting. In addition, the fellow has the option to rotate at Kaiser Permanente-Bellflower to participate in additional reconstructive cases with Dr. Eugene Chu. A unique opportunity also exists, in that fellows in the base have participated in skull base cases as well at both, UC Irvine and Kaiser, Irvine. Drs. Mark Krugman and Roger Crumley are still heavily involved with the fellowship, but are Emeriti faculty. The clinical experience is broad-based and comprehensive, covering all aspects of facial plastic surgery. The scope and breadth of the fellowship experience includes a solid balance of aesthetic and reconstructive surgical cases. The

fellow will participate in approximately 850-1050 operative cases during his time, which includes approximately half to one-third the cases as primary surgeon. Case volume includes on average approximately 150 rhinoplasties, 75-100 rhytidectomies, 150+ MOH's defect or other reconstructions, up to 35 microvascular operations and craniomaxillo-facial trauma reconstruction cases. Case distributions vary with the interest and focus of the fellow. The fellowship is dovetailed to the particular interests of each fellow, though the focus remains on establishing a balanced clinical experience. The clinical sites for the fellowship are distributed through Orange County and the fellow will be expected to drive to the separate clinical sites/locations. The fellow will also have the opportunity to visit and observe other surgeons in Newport Beach, Beverly Hills, and La Jolla when time is available.

RESEARCH:

The fellow will be expected to work on two projects, one with an entirely clinical focus and the second in a translational area of medicine. Dr. Wong's lab at the Beckman Laser Institute at UC Irvine is staffed by four full time PhD scientists who will be able to assist the fellow in these translational research endeavors.

TEACHING RESPONSIBILITIES:

The fellow is appointed as a Clinical Instructor and will be responsible for coordination of the monthly Friday morning Facial Plastic Surgery Conference along with Dr. Mark Krugman. They are expected to attend all departmental grand round meetings and the majority of Thursday morning Resident teaching conferences as well. The fellow will participate in department soft tissue laboratories and give lectures as well in departmental CME events. The fellow will be asked, from time to time, to lecture to medical students on rotation through the department.

CASE LOAD:

850-1050 cases (range over last 5 years)

CALL RESPONSIBILITIES:

The fellow takes call in rotation with the other faculty members in the Department of Otolaryngology and this includes general otolaryngology call at UC Irvine MC. Non-acute pediatric and otologic consultations are accordingly referred to others within the department, likewise reconstructive and trauma cases that come up as consultations while on call tend to be referred to the fellow from those other specialists.

BENEFITS:

- *Health: Yes
- *Stipend: approximately \$45,000 to \$55,000/annum
- *Malpractice: Yes
- *Tail Coverage: Yes
- *Other: office, computing facilities

ADDITIONAL INFORMATION:

The fellowship is a broad-based clinical experience that can be customized to the particular interests of each and every fellow, though the fellowship is designed for those who wish to pursue a broad-based otolaryngology practice and ideally pursue a career in academic facial plastic surgery.
